Rainforest Birds & Mammals
5th to 24th June 2017 (20 days)
Trip Report

Mountain Peacock-Pheasant by Glen Valentine

Tour leaders: Glen Valentine and Dennis Yong

Trip report compiled by Glen Valentine
Tour Summary

Excited and raring to go, our enthusiastic group of birders gathered outside our Kota Kinabalu hotel; and while the last few bags were being loaded onto the vehicles, we began picking up our first birds of the trip: Pink-necked Green Pigeon, Common Iora, Brown-throated Sunbird, Glossy Swiftlet, Zebra Dove and Asian Glossy Starlings all put in an appearance before we made our departure towards our first scheduled birding stop of the morning, a short drive away.

Parking at the edge of a small river, we walked a short distance along the edge of the channel and added Nankeen and Black-crowned Night Herons, Pacific Reef Heron, Sunda Pygmy Woodpecker, Collared Kingfisher and Olive-backed Sunbird to the list. Our next stop was at Prince Philip Park, a great place to do an hour’s birding before leaving the city. A short stroll around here gave us some excellent birds, many of which we wouldn’t see again on the trip. A very handsome Java Sparrow was a great bonus and quite unexpected; while Blue-naped Parrot, Crested Myna, White-breasted Woodswallow and Chestnut Munia were all target species that were easily found and showed very well. More Sunda Pygmy Woodpeckers were also seen and a scan out to sea revealed several Little Terns in full breeding plumage, feeding over the ocean.

Around mid-morning, we left the city and began the drive towards Mount Kinabalu. We did, however, have one final and exciting stop planned before leaving the area; and that was at a small sandbar in Likas Bay, where several Malaysian Plovers have recently been found residing. The stop proved most successful, as we managed to locate two plovers, one in winter plumage and the other sporting full nuptials. Fantastic! With another localised and scarce species in the bag, we hit the road to Mount Kinabalu, arriving at the national park around midday. After a tasty buffet lunch, we embarked on our afternoon’s birding excursion around the base of the mountain.

With only a few hours of daylight left, we made the most of our time and were delighted to pick up a range of excellent species that included several range-restricted Bornean endemics. Black-sided Flowerpeckers fed on the fruiting bushes; while Temminck’s Sunbirds favoured the nearby flowering trees. Flocks of active and noisy Chestnut-crested Yuhina fed busily along with Black-capped White-eyes; while small, mixed-species flocks in the forest interior yielded Bornean Whistler, Yellow-breasted and Mountain Leaf Warblers, Chestnut-hooded Laughingthrush, Hair-crested Drongo, White-throated Fantail, White-bellied Erpornis, Little Pied Flycatcher and Grey-throated Babbler. A pair of Snowy-browed Flycatcher was a good find and showed quite well in the
forest understorey, and a Besra that was perched in a rather concealed spot was a great bonus too. After a very successful and enjoyable start to our Mount Kinabalu birding experience, we decided to quit while we were ahead when thick cloud and fog began to roll in towards the late afternoon.

Our next three days on the mountain produced some of the best quality birds of the entire trip! The birding was fairly challenging at times, as is almost always the case at Kinabalu, but with patience and perseverance came results, and we ended up with a fabulous suite of rare, localised and sought-after Bornean Highland endemics. Our first morning’s birding began at the upper-most section of the road at the Timpohon Gate, where we immediately found Bornean Whistling Thrush feeding quietly at the road edge. Soon we added the gorgeous Indigo Flycatcher, Golden-naped Barbet, Mountain Blackeye and Sunda Bush Warbler; while Blyth’s Hawk-Eagle, Wreathed Hornbill and Bornean Swiftlet entertained us overhead. Continuing down the road, we encountered several flocks of Chestnut-hooded Laughingthrush along with small numbers of Sunda Laughingthrush. Blyth’s Shrike-Babbler, Grey-chinned Minivet, Little Cuckoo-Dove, Checker-throated and Maroon Woodpeckers, Sunda Cuckoooshrike, the vivid Bornean Green Magpie, noisy Bornean Treepie and Ochraceous Bulbul were also seen, along with many of the same species encountered the previous afternoon. A Whitehead’s Broadbill called tantalisingly close, but unfortunately, could not be seen. After lunch, we managed to obtain views of a responsive pair of Temminck’s Babblers; while a White-browed Shortwing was also teased into view.

Over the course of the next two days, we became acquainted with a number of the same species seen on our first day, but also managed to add sought-after species like the stunning Whitehead’s Trogon, scarce Bare-headed Laughingthrush, Mountain Wren-Babbler, secretive Bornean Stubtail, the rare and elusive Everett’s Thrush, Sunda Cuckoo, the very rarely seen Bornean race of Collared Owlet (soon to be split as Sunda Owlet), Mountain Tailorbird, Eyebrowed Jungle Flycatcher, Bornean Forktail, a brief encounter with Crimson-headed Partridge and several perched Mountain Imperial Pigeons.

On our final afternoon in the area, we ventured lower down to the Poring area where we were thrilled to have the opportunity to marvel at two flowering Rafflesia that included a three-day-old flower with an incredible eight petals! We also enjoyed an exciting afternoon’s birding close to the hot-springs, where we were treated to a wealth of fabulous lowland species, such as Golden-whiskered, Red-throated and Blue-eared Barbets, the handsome Banded Broadbill, Green Iora, Black-bellied Malkoha, Violet Cuckoo, Grey-rumped Treeswift, Black-headed, Asian Red-eyed and Spectacled Bulbuls, Scaly-crowned Babbler,
Orange-bellied Flowerpecker, gorgeous Brown-throated and Scarlet Sunbirds, Spectacled Spiderhunter and Dusky Munia.

Mammals were also well represented on Mt Kinabalu and during our time in the park, we managed to find many species of squirrel and several other endearing mammals that included Kinabalu, Borneo Black-banded, Borneo Mountain Ground, Tufted (Whitehead’s) Pygmy and Jentink’s Squirrels, as well as Mountain Treeshrew. We were also very fortunate to encounter the rarely seen Malay Weasel that dashed across the road in front of us on one occasion.

After an enjoyable few days on the mountain, it was time to leave the cool and pleasant climate of Mt Kinabalu and make our way back to Kota Kinabalu, from where we caught our domestic flight to the town of Lahad Datu, situated on Borneo’s east coast and the gateway to the fabulous rainforest reserves of the Danum Valley and Tabin. Arriving in the late morning, we made our way through town, where a round-about adorned with an elaborate Clouded Leopard statue caught our attention. Roundabouts were indeed a feature of the Borneo leg of the trip, and made for a fair deal of amusement, with massive statues of pineapples, bok choy, cows and teacups all adorning the roundabouts on the way up to Mt Kinabalu. After a delicious lunch in Lahad Datu, we continued the drive into the Danum Valley. Our first roadside stop of the journey produced a Yellow-eared Spiderhunter and Buff-vented Bulbul; while a flowering tree a little further on was ablaze with birds, and yielded a large flock of Everett’s White-eye, both Greater and Lesser Green Leafbirds, Yellow-breasted, Yellow-rumped and Orange-bellied Flowerpeckers, Ruby-cheeked, Plain and Purple-naped Sunbirds and Spectacled Spiderhunter. The remainder of the drive gave us a soaring Crested Honey Buzzard and our first of many magnificent Rhinoceros Hornbills.

In the late afternoon, we arrived at the spectacular Borneo Rainforest Lodge, where we quickly settled in and soon ventured out for some late afternoon birding and exploring. Upon meeting our local guide, we were immediately informed of the news that a female Orangutan and baby were showing well opposite the lodge on the other side of the Danum River. With much excitement and anticipation, we struck out to where they were last seen and managed to find the endearing mother and baby almost immediately after arriving at the site. Excellent scope views of these amazing primates ensued and we eventually walked away from them to begin our birding along the entrance road. While watching the Orangutans, we were partially sidetracked by perched Whiskered Treeswift and Blue-throated Bee-eater, a pair of Wrinkled Hornbills in
flight overhead and low-flying Silver-rumped Spinetail, as well as Bornean Spiderhunter and Yellow-rumped Flowerpecker around the flowering bushes. The birding in the gloomy late afternoon was, however, rather quiet, even along the road. We did manage to find Lesser Cuckooshrike and a vociferous pair of Fluffy-backed Tit-Babbler, but we’d have to wait for the next day to really get stuck into Danum’s incredible avifauna.

Our two full days of birding along the entrance road and the network of forest trails in the Danum Valley was superb and produced an array of star birds. Top of the list was probably the flock of Bornean Bristleheads that appeared near the canopy walkway in the late afternoon of our first full day. After trying to lure a calling Bornean Banded Pitta into view, we learnt through our local guide that another group of birders had just seen a group of Bristleheads along the entrance road, so off we headed, out of the forest interior and onto the entrance road. It was a good kilometre’s walk to get to the area but somehow we managed to do it no time at all. *When the adrenaline’s pumping, it’s amazing what the body will do, even in thirty-degree heat and eighty percent humidity!* Almost immediately upon arriving, the see-saw piping calls of a Bristlehead were heard and we quickly managed to locate the calling, flying and perched birds high up in the forest canopy that afforded us good scope views. *Sensational!* The clearing also held a group of Bornean Black Magpies, Black Hornbills, a distant pair of Fiery Minivet and the unique Bornean race of Greater Racket-tailed Drongo.

Other highlights during our time at Danum included Bornean Crested Fireback, a handsome perched Wallace’s Hawk-Eagle, Raffles’s and Chestnut-breasted Malkohas, Square-tailed Drongo-Cuckoo, a vibrant male Violet Cuckoo, colourful Red-naped, Diard’s and Scarlet-rumped Trogons, a female Banded Kingfisher, Red-bearded Bee-eater, magnificent Rhinoceros, Black, Wrinkled and Wreathed Hornbills, Grey-capped Pygmy Woodpecker, Black-and-yellow and Dusky Broadbills, Blue-headed and Bornean Banded Pittas, Rufous-winged Philetoma, Lesser Cuckooshrike, Dark-throated Oriole, the cute and quirky Spotted Fantail, nesting Black-naped Monarch, Scaly-breasted, Yellow-bellied and Hairy-backed Bulbuls, Brown Fulvetta (*diagnostic due to lack of any distinguishing features!*), the beautiful and vociferous White-crowned Shama, Bornean, Sunda and Malaysian Blue Flycatchers, Greater and Lesser Green Leafbirds, Yellow-rumped Flowerpecker and Bornean Spiderhunter. Danum is also babbler heaven and we were treated to the melodic songs of many different species and were eventually afforded views of Chestnut-rumped, Chestnut-winged, Sooty-capped, Scaly-crowned, Rufous-crowned and Ferruginous Babblers. Silver-rumped Spinetails zipped across the open riparian...
habitat that was also occupied by Blue-throated Bee-eaters, Stork-billed Kingfisher and Lesser Fish Eagle, and the lodge grounds harboured Buff-rumped Woodpecker, Rufous-tailed Tailorbird and Bold-striped Tit-Babbler.

One of our most memorable sightings and experiences at Danum came when a spectacular Helmeted Hornbill was encountered one afternoon sitting right out at very close range and was watched in awe and with some humour as it entertained us with its incredible call, a slow build-up of pooping notes that lasts about a minute and then eventually escalates into a full blown cackling laugh. *A truly awesome experience and sighting that we were extremely fortunate to witness!*

We also undertook a productive and most enjoyable night drive that produced a few interesting mammals like Red and Thomas’s Giant Flying Squirrels, Malay Civet, Sambar and Leopard Cat, as well as a regal Barred Eagle-Owl. Both Large and Sunda Frogmouths called tantalisingly close on separate nights, but would sadly not show themselves despite our best efforts.

We were also fortunate to encounter several more Orangutans during our time in the forest and other mammals that caught our attention included the endemic Maroon Leaf Monkey, Muller’s Bornean Gibbon, the minuscule Least Pygmy Squirrel, Prevost’s Squirrel, Malay Weasel, Bearded Pig, Greater Oriental Chevrotain and a mother and baby Malayan Colugo during a night walk.

We left Danum mightily pleased with our sightings during our time there; and what an enjoyable place to be, with the idyllic setting, wonderful food and incredibly comfortable accommodations. Leaving the Danum Valley, we made our way back to Lahad Datu, picking up Bushy-crested Hornbill, a dark morph Changeable Hawk-Eagle and two soaring Rufous-bellied Hawk-Eagles along the way. After another delicious lunch at the restaurant in town, we drove the remaining distance to the Gomantong Caves where we spent the late afternoon admiring a perched Bat Hawk and also enjoying Edible-nest, Mossy-nest and Black-nest Swiftlets on their nests that cling to the high walls of the impressive caves. Unfortunately, the overcast and drizzly weather meant that the bat emergence would not take place this evening, so we departed the caves just before dusk to arrive at our comfortable lodge along the forest-lined Kinabatangan River with enough time for dinner and a night boat ride. Nocturnal voyages along the river are always exciting and productive and this evening’s trip was no exception, as we encountered a gorgeous pair of Buffy Fish...
Owls, a roosting Blue-eared Kingfisher and Proboscis Monkey, as well as one of the species of Bronzeback (*a type of snake*).

We had a full day to soak up the wonders of the Kinabatangan River, with morning and afternoon boat trips along this bird and mammal rich river. Our morning outing was especially fruitful and turned up mouth-watering specialities such as Black-and-red Broadbill, flocks of Wrinkled, Rhinoceros, Oriental Pied and Black Hornbills, the endangered Storm’s Stork, Jerdon’s Baza, a Bat Hawk in flight, Crested Goshawk, Lesser Coucal, the endemic Brown Barbet and Black-winged Flycatcher-shrike, as well as several troops of the unique and endemic Proboscis Monkey, Silvery Lutung and another Bornean Orangutan.

Upon our return to the lodge in the late morning, we opted for a pre-lunch search for Hooded Pitta and this proved to be a great move as we were treated to excellent sightings of this stunning pitta.

In the afternoon, we headed out in the opposite direction to our morning’s outing and although it was very quiet initially, the activity picked up drastically in the late afternoon when Grey-headed and Lesser Fish Eagles, Lesser Adjutant, Brahminy Kite, White-bellied Sea Eagle, Oriental Dollarbird, Stork-billed, Blue-eared and Collared Kingfishers, a fly-over Long-tailed Parakeet and a number of hornbills were encountered close-by at the river’s edge.

Our boat trips along the Kinabatangan River and Black Water Tributary with their relaxing nature and easy, forest-edge birding gave a much-appreciated break from the muddy and leechy forest trails of Danum, but alas it was time to leave this magical area behind and begin the second leg of our epic Malaysian birding voyage by heading west to Peninsula Malaysia. However, our time in Sabah, northern Borneo, was not over just yet and we still had most of our final morning there to bird the superb forest along the Gomantong Cave entrance road. The tall, lush, primary forest in this area always produces some interesting and notable sightings and our morning here gave us several absolute crackers, like a pair and two juvenile White-fronted Falconets, an immensely showy and utterly brilliant pair of Black-crowned Pittas that almost hopped over the feet of a whistling Dennis Yong, a very responsive pair of Moustached Hawk-Cuckoo, a pair of Black-throated Babblers, perched Little Green Pigeons, Dark-necked Tailorbird and a flock of Bushy-crested Hornbills, amongst a number of other more common and widespread species.
In the late morning, we departed the Gomantong area for the nearby town and airport of Sandakan, from where we boarded our internal flight to Kuala Lumpur.

Hitting the ground running, we departed our hotel in KL and struck out for a fairly new site on the Malaysian birding map: the Genting Mountains and Bukit Tinggi. This area recently gained a lot of attention and interest when it became a site to see the once mythical Mountain Peacock-Pheasant. We weren’t going to miss out on this incredible opportunity and after a fairly short drive out of the country’s capital city, we arrived in the cool and forested Genting Highlands while it was still early, and immediately set out up the hill to the feeding station where a family group of Mountain Peacock-Pheasants have regularly been coming in to feed on meal worms. We arrived at the feeding station/hide/blind where a few other birders and photographers had already set up camp. The general bird activity around the hide was superb and it was hard to ignore the very close Silver-breasted Broadbill, Yellow-bellied Warblers, Grey-bellied, Ochraceous, Mountain and Cinereous Bulbuls, Buff-breasted Babbler, White-rumped Shama and Velvet-fronted Nuthatch.

After quickly getting everyone onto the array of exciting new birds, it was down to the business of watching the feeding area intently for the Peacock-Pheasants. However, the pair of Oriental Magpie-Robins that hung around kept hopping in and gauging themselves on the worms, and we soon became worried that we’d run out of bait before the quarry appeared. Finally, just as we were starting to lose hope, there they were; a fabulous pair of Mountain Peacock-Pheasants in all their glory. Just stunning and what relief all round! They hung around and fed rather skittishly for about five minutes, showing their brilliant emerald spots and immaculate plumage before disappearing back into the dense forest. On an all-time high, we departed the hide and continued along the road, enjoying some more good birding with the likes of Crimson-winged Woodpecker, White-bellied Erpornis, Black-crested Bulbul, nesting Silver-breasted Broadbill, Pin-striped Tit-Babbler, Rufous-fronted Babbler and Blue-winged Leafbird all showing very well. A group of the clown-like Dusky Leaf Monkeys also put in an appearance; while a troop of Siamang whooped and howled in the distance.

We departed Bukit Tinggi in the late morning and wound our way down the mountain to a nearby restaurant, where several ice-cold adult beverages were consumed to celebrate our mega morning’s sighting and other great birds. After a tasty lunch, we continued the drive north towards Kuala Selangor, our base for the next night, with a short birding stop along the way at a small, roadside...
wetland. Despite the intense midday heat, we amazingly managed to pick up some good quality species in a quick-fire fifteen minutes at this always-worthwhile birding stop, with highlights including a juvenile Eastern Marsh Harrier, Lesser Coucal, Baya Weaver and White-headed Munia. Top bird, however, had to go to the Cinnamon Bittern thanks to some rather incredible spotting, yet again, by Scott!

In the late afternoon, we arrived at our accommodations in Kuala Selangor and after checking into our rooms, we undertook a short stroll alongside the mangroves and scrub near our hotel. The monotonous calls of Coppersmith Barbets echoed across the hotel grounds and was easily located; and a little further on, we managed to coax out a singing Mangrove Whistler, as well as a superb pair of Mangrove Blue Flycatchers and Golden-bellied Gerygone. Sunda Pygmy Woodpecker, Laced and Rufous Woodpeckers and Common Flameback were also in attendance and showed superbly well, as were Scaly-breasted and White-rumped Munias, Pied Triller and Black-naped Oriole. A great start to our time at Kuala Selangor and with most of the area’s target species already under the belt by dusk, we settled in for the evening and enjoyed a well-deserved dinner at a nearby Chinese Restaurant and a good night’s rest.

The next morning saw us up before dawn, and this paid off with good flight views of a Large-tailed Nightjar. Thereafter, we made our way to the nearby Taman Alam Nature Reserve for an early morning birding session to try and pick up a few species that we did not encounter the previous afternoon. Abbott’s Babbler sang away and teased us but eventually fed unperturbed next to the trail. Pink-necked Green Pigeons sat out on top of the dead trees at the forest edge; while Ashy Tailorbirds, Yellow-bellied Prinia and Olive-winged Bulbuls were commonly heard and seen in the undergrowth. More Laced Woodpeckers and Mangrove Blue Flycatchers were seen, along with excellent perched views of the impressive Stork-billed Kingfisher. The prize species of the morning, though, had to go to the fabulous Chestnut-bellied Malkoha that fed in the open at the canopy edge for us to admire at length. What great views of this rare and localised species!

After a good morning’s birding in Taman Alam’s coastal forest and mangroves, we departed the hot and humid lowlands and began winding our way back up into the mountains. This time we were headed for the Cameron Highlands and the hill station, and the famous birding destination of Fraser’s Hill. However, as we climbed higher so the weather began to deteriorate. A brief roadside stop en route in the persistent drizzle produced the target species in the form of the very attractive and richly-
coloured Rufous-bellied Swallow, a Peninsula Malaysia and southern Thailand endemic that was recently split from the widespread Striated Swallow. Arriving at Fraser’s Hill in the late afternoon, we checked into our accommodation and set out to bird along the forest-fringed roads that radiate out from town. Unfortunately, some dense fog had rolled in and sightings of Fire-breasted Flowerpecker and Streaked Spiderhunter merely appeared as shapes in the canopy, but we decided to tough it out and by the end of the afternoon, we’d eventually managed to obtain good views of Chestnut-capped and Malayan Laughingthrushes, and Long-tailed Sibia. A Lesser Shortwing sang from the forest undergrowth and popped out ever so briefly for some to see before it eventually became too dark and misty to see anything at all, so we returned to our hotel and settled in, eager to continue birding this fabulous area the next morning.

Our first full day at Fraser’s Hill had us awakening to very similar weather as the previous afternoon, but we were determined to get stuck into the area’s great birds. A feeding area nearby seemed like a good bet with the poor visibility; and this proved to be a good move, as we were entertained at close range by large numbers of Chestnut-capped Laughingthrush, as well as several Silver-eared Mesia, Long-tailed Sibia and a Fire-tufted Barbet. The remainder of the morning was spent along the Waterfall Road at a slightly lower altitude. The general bird activity never really got going, though, due to the overcast weather, but we did still manage to find Red-bearded Bee-eater, Javan Cuckoo-shrike, Lesser Racket-tailed and Bronzed Drongos, Little Cuckoo-Dove, the spectacular Sultan Tit, Yellow-bellied and Chestnut-crowned Warblers, Golden Babbler and Mountain Fulvetta. The very rare and seldom-seen Marbled Wren-Babbler called tantalisingly close and came in briefly for a few seconds, but it was just too secretive and was sadly not seen by any of the guests.

In the afternoon, we visited another area at the edge of town that consistently produces great sightings; and this afternoon was no exception, as we were spoilt with knockout, walk-away views of the usually secretive and stunning Rufous-browed Flycatcher and White-tailed Robin. We also found a female Large Niltava, as well as Greater Yellownape, Blue-winged Minla and the exquisite Long-tailed Broadbill. At a different feeding station, we were blown away when a covey of four adult Malaysian Partridges accompanied by two tiny chicks showed up and stayed around for several minutes. Absolutely sensational! This species, like the Mountain Peacock-Pheasant, is endemic to the Malay Peninsula and was extremely tough to see until recently! Also in attendance was a young male Common Emerald Dove that put on an amazing show, and a pair of Malayan Laughingthrush that were also seen much better and for much longer than usual, as they hopped about in the open right in front of us! Just as we were about to load up and drive to our final birding site of the day, Shailesh pulled off
yet another cracking spot in the form of a Streaked Wren-Babbler that, for some strange reason, decided to perch out in the open on a low stump at the side of the road.

We rounded off a superb first day at Bukit Fraser by paying a late afternoon visit to a clearing, where we hoped to find Malaysian Eared Nightjar flying around and perhaps emitting its beautiful, cheerful whistled call. After waiting until it was almost dark and just as we were about to give up and talk about returning the next evening, one was spotted flying high overhead, almost harrier-like. The bird disappeared, though, before most of the group was able to get onto it; but fortunately, it reappeared a few minutes later and was watched at fairly close range as it flew through the spotlight for all to admire. Excellent! On the drive down to this site, we were entertained by a Slaty-backed Forktail that kept flying ahead of us and then out of sight, but refused to leave the road; and a Rufescent Prinia sat up and called from an exposed perch for us to admire at length. What a superb day in a wonderful area!

We still had a full day and a half to reel in the remainder of the area’s target species and the next morning saw us venturing down the New Gap Road. This interesting area harbours both the high altitude montane forest species, as well as a surprising number of lower altitude forest birds, and always makes for a productive and interesting morning’s birding. First up was a pair of Hill Blue Flycatcher that cooperated nicely. A Red-headed Krait (a beautiful but extremely venomous snake) had very recently been run over and was seen at the roadside; while a Large Woodshrike called and flew overhead. A little further down, we stopped to enjoy perched Bar-winged Flycatcher-shrikes, an adult Rufous-bellied Hawk-Eagle and several impressive and low-flying Black Eagles. Superb spotting by Chantal then led to excellent scope views of a calling Orange-breasted Trogon, and a Black-browed Barbet was also finally heard and came in very close to investigate. Cinereous and Mountain Bulbuls were also found, as was a fantastic pair of extremely vocal Black Laughingthrush, both Orange-bellied and Blue-winged Leafbirds, several flocks of Everett’s White-eye, a pair of Velvet-fronted Nuthatch and no fewer than eighteen Long-tailed Broadbills that included a flock of around a dozen of these exquisite and usually scarce birds. Incredible! We also finally obtained great views of Fire-breasted Flowerpecker, Streaked Spiderhunter and Black-throated Sunbird that had previously only been seen in dull, foggy and back-lit light.

In the afternoon, we walked most of the length of the Telecom Loop but since it was a very warm and clear
afternoon, the bird activity was rather slow indeed. We did still manage to locate and obtain flight views of a pair of Great Hornbills; while three Blyth’s Hawk-Eagles and a Crested Honey Buzzard soared overhead. A mixed-flock in the late afternoon yielded a number of species already seen very well, such as Blyth’s Shrike-Babbler, White-bellied Erpornis, Grey-throated Babbler, Mountain Tailorbird, White-throated Fantail and Mountain Fulvetta, as well as a Speckled Piculet that was a nice new addition, and a rather skittish and flighty pair of Orange-backed Woodpeckers was also encountered a little further on. A Rusty-naped Pitta responded to playback and came in extremely close to investigate, but the understorey vegetation was unfortunately just too dense and no one managed to obtain even a glimpse of this rarely seen pitta. Soon it was dusk and after birding one final flock, which harboured several Grey-chinned Minivets but no accompanying Blue Nuthatches, we called it a day and made our way back to the comfort of our hotel in town for our final night’s stay at Fraser’s Hill.

During our time around Fraser’s, we also encountered several species of mammal that included troops of Banded Leaf Monkey, the minuscule, chipmunk-like Himalayan Striped Squirrel, Red-cheeked Ground Squirrel, the widespread Pallas’s Squirrel and the massive Black Giant Squirrel.

Sadly, it was time to bid the wonderful little town of Fraser’s Hill and its beautiful, lush, evergreen forest farewell, and make our way back into the lowlands and our final destination of the trip, the world-famous Taman Negara National Park. However, we did still have one final morning in the hill forest around town and around The Gap to try and pick up the last remaining handful of specialities for the area.

After some challenging owling before breakfast, and an unsuccessful stake-out of Malayan Whistling Thrush, the morning finally kicked off bird-wise with a glorious Common Green Magpie and Lesser Yellownape right outside our hotel while we were finishing loading up the van. We then continued in fine style with a brilliant pair of Blue Nuthatch feeding alongside Grey-chinned Minivets. A Collared Owlet and Hill Blue Flycatcher then arrived with a male Black-eared Shrike-Babbler feeding high up in the canopy. A small group of Brown-backed Needletails cruised by overhead and in the mid-morning, we ventured lower down and spent the remainder of the morning around The Gap. Just before arriving at our birding site, Dennis brought the van to a halt when he heard the loud and distinctive whooping calls of Siamang emanating from the forest above the road. We jumped out and after scanning the forest canopy up-slope, we soon found the large, black gibbons that were making the incredible noise that
was resonating out of the forest. *What a great find!* We were able to enjoy good scope views of these seldom-seen primates as they hung and swung from limb to limb. *A very lucky sighting indeed!* Thereafter, we drove the remaining few hundred metres down to The Gap. Our short time along the road here turned up Red-billed Malkoha, a brief Red-headed Trogon and excellent views of Scarlet Minivet, Black-browed Barbet, another unexpected pair of Rufous-bellied Swallows and Blue-winged and Orange-bellied Leafbirds.

After a lunch stop in Raub, we continued the drive north towards Taman Negara in the early afternoon and made just one short stop along the way for ice-cream. Arriving at Kuala Tahan in the late afternoon, we crossed the Tembeling River by boat with our entire luggage in tow and checked into the fabulous resort on the other side, the Mutiara Taman Negara, our marvellous base for the final four nights of the tour. With only an hour of light remaining, we opted to spend our time at the nearby Tahan Hide, which proved worthwhile as we were able to enjoy good scope views of three of the rare, range-restricted and highly threatened Large Green Pigeon. Grey-rumped Treeswifts hawked insects overhead; while Blue-crowned Hanging Parrots screeched by too. In the neighbouring tall trees, we heard and managed to locate calling Banded and Rufous Woodpeckers before the light faded.

Taman Negara is well-known for supporting a number of rare and elusive nocturnal birds and mammals, but seeing these species is a challenge indeed. We spent several hours in the evening and early morning trying our luck at these species but, as usual, with relatively little success – except for an extremely showy female Blyth’s Frogmouth that was seen remarkably well at extremely close range on consecutive evenings.

We had three full days to explore the extensive and verdant lowland rainforest protected by the vast Taman Negara National Park, and concentrated our time on a few key areas. Our forays here produced a number of fantastic birds, as well as a few interesting and noteworthy mammals. One of the first birds we encountered upon leaving the breakfast buffet on our first morning was the female Great Argus that pottered around the edge of the restaurant. Unfortunately, this extremely tame and introduced individual cannot be counted, much to everyone’s disappointment, but it was still fun to at least see one of these awesome pheasants. Sadly, the display grounds in Taman Negara and the Danum Valley, where this magnificent species could easily be seen until a few years ago, do not currently harbour any calling or displaying males and the Great Argus, at least for the time being, has become virtually impossible to see in the wild. Another
quirky resident at the Mutiara restaurant was the juvenile Bushy-crested Hornbill that had been rescued from the nearby town where it had been held as a pet. *It was always five minutes early for breakfast and seemed particularly partial to breakfast sausages and bread rolls!*

Our time spent along the various muddy forest trails inside the National Park rewarded us with a number of highly desirable species that included Red-naped and Diard’s Trogons, Rufous Piculet, Buff-necked Woodpecker, Malayan Banded and Garnet Pittas, the unique, shy and monotypic Crested Jay, Grey-cheeked, Yellow-bellied and Hairy-backed Bulbuls, Chestnut-backed Scimitar Babbler, Black-throated, Abbott’s and Moustached Babblers and Grey-breasted Spiderhunter. Probably the star bird of the forest interior, though, was a stunning Rufous-collared Kingfisher that was scoped and admired at length at close range. *This scarce and extremely attractive kingfisher was certainly one of the trip highlights!* During our short boat trips to and from the Bumbun Blau Trail, we were fortunate to encounter a group of three Black Magpies that seemed to favour a large bare tree at the water’s edge in the early morning. We’d seen the all-black Bornean subspecies of Black Magpie earlier in the trip in the Danum Valley, but were very pleased to encounter the Peninsula subspecies with white wing bars, as these two highly distinctive subspecies are often split as separate species.

We also spent a fair amount of time back at the Tahan Hide and in the lodge gardens, where we enjoyed notable species like Raffles’s, Chestnut-breasted and Black-bellied Malkohas, the attractive Blue-throated Bee-eater, Sooty Barbet, Straw-headed Bulbul, the impressive Great Slaty and White-bellied Woodpeckers, tiny Black-thighed Falconet, high-flying Blue-rumped Parrots, nesting Black-and-red Broadbill, Tickell’s Blue Flycatcher and quite amazingly, several more Large Green Pigeons. First prize, however, goes to the female Jambu Fruit Dove that Dennis masterfully spotted. This rare and beautiful dove is very seldom encountered anywhere in its limited range, and was a lifer for the leader!

We were also very fortunate to have had an active fruiting tree right next to the restaurant that we could watch at leisure, and that produced an array of great birds during our stay. The dazzling Asian Fairy-bluebird, Purple-naped and Plain Sunbirds, Greater and Lesser Green Leafbirds, and Grey-bellied, Stripe-throated, Spectacled, Asian Red-eyed and Streaked Bulbuls were in constant attendance; while Golden-whiskered Barbet also made the occasional appearance. The scarce Yellow-crowned Barbet appeared on one occasion, as did Crimson-breasted Flowerpecker, but the undoubted cherry on top went to the pair of resplendent Green Broadbills that
visited the tree and gauged themselves on the ripe, purple fruit on several occasions and put on an amazing show!

Alas, our time in Malaysia had drawn to a close. We’d seen so many outstanding and outlandish birds and mammals during the past three weeks; and with the fondest memories that would last forever, we departed Taman Negara, enjoyed a final lunch near Bukit Tinggi and then said our farewells as we departed for our onward journeys home.

Thank you so much to everyone for your help in making this comprehensive tour of Peninsula Malaysia and Sabah, Borneo, an immensely enjoyable and rewarding trip for both Dennis and I, and yet another resounding success for Rockjumper. We hope to see you all again in the near future. Until next time…

Annotated List of species recorded

Note:

- Number in brackets ( ) indicate number of days on the tour the species was recorded.
- A notes section appears where a species has recently been split or lumped or where this is likely to occur in the near future or where the taxonomy differs between the two major world lists: IOC and Clements
- Alternative names appear in brackets

List powered through the report generator of our partner iGoTerra.

**Birds (357 in total: 332 seen, 25 heard)**

Nomenclature and taxonomy follows Gill, F and D Donsker (Eds). 2017. IOC World Bird List (v 7.1).

**Status codes:** BE = Bornean Endemic, I = Introduced
**IUCN codes:** CR = Critically endangered, EN = Endangered, VU = Vulnerable, NT = Near Threatened, DD = Data Deficient
H = Heard only

**Pheasants, Grouse, and Allies - Phasianidae**

**Malaysian Partridge** *Arborophila campbelli*
(1) 6 Fraser's Hill 18.6. A localised and very rarely seen species!

**Red-breasted (Bornean) Partridge (BE) (H)** *Arborophila hyperythra*
(1) 1 heard Mt Kinabalu NP 9.6.

**Chestnut-necklaced Partridge (NT) (H)** *Arborophila charltonii*
(3) 1 heard Danum Valley BRL 10.6, 1 heard Danum Valley BRL 12.6 and 1 heard Kinabatangan River 14.6.
NOTE: The Bornean subspecies is sometimes split from the mainland race as Bornean Chestnut-necklaced Partridge. Neither IOC nor Clements currently accept this split.

**Crimson-headed Partridge (Bloodhead) (BE)**
Haematortyx sanguiniceps
(3) Up to 1 Mt Kinabalu NP 7-9.6.

**Red Junglefowl**
Gallus gallus
(1) 1 between Fraser's Hill and Taman Negara 20.6.

**Crested Fireback (NT)**
Lophura ignita
(4) 1 between Lahad Datu and Danum Valley 10.6, 1+1 heard between Lahad Datu and Danum Valley 10.6, up to 1 between Lahad Datu and Danum Valley 10-10.6, 1 Danum Valley BRL 12.6, 3 Danum Valley BRL 13.6 and 1 heard Taman Negara Np 23.6.

NOTE: The Bornean subspecies is often split as Bornean Crested Fireback with the mainland race then becoming Malaysian Crested Fireback. Neither IOC nor Clements currently accept this split.

**Malayan Peacock-Pheasant (VU) (H)**
Polyplectron malacense
(3) Up to 1 Taman Negara Np 21-23.6.

**Mountain Peacock-Pheasant**
Polyplectron inopinatum
(1) 2 seen at Bukit Tinggi. 16.6.

**Great Argus (NT)**
Argusianus argus
(3) 1 heard Danum Valley BRL 13.6, 1 heard Taman Negara Np 21.6 and 1 heard Taman Negara Np 22.6.

**Storks - Ciconiidae**

**Storm's Stork (EN)**
Ciconia stormi
(2) 4 Kinabatangan River 14.6 and 1 Kuala Selangor 15.6.

**Lesser Adjutant (VU)**
Leptoptilos javanicus
(1) 1 Kinabatangan River 14.6.

**Herons, Egrets, and Bitterns - Ardeidae**

**Cinnamon Bittern**
Ixobrychus cinnamomeus
(2) 1 Danum Valley BRL 12.6 and 1 between Kuala Lumpur and Kuala Selangor 16.6.

**Black-crowned Night Heron**
Nycticorax nycticorax nycticorax
(3) 10 between Kuala Lumpur and Kuala Selangor 6.6, 2 Kinabatangan River 14.6 and 4 Kuala Selangor 17.6.

**Nankeen (Rufous) Night Heron**
Nycticorax caledonicus
(2) 6 between Kuala Lumpur and Kuala Selangor 6.6 and 1 Danum Valley BRL 13.6.

**Striped (Green-backed) Heron**
Butorides striata
(3) 1 between Kuala Lumpur and Kuala Selangor 6.6, 4 Kuala Selangor 16.6 and 2 Kuala Selangor 17.6.

NOTE: Green-backed Heron was recently split into three species: Striated, Lava and Green Herons.

**Eastern Cattle Egret**
Bubulcus coromandus
(1) 2 Kuala Selangor 15.6.

NOTE: IOC splits Cattle Egret into two species: Eastern and Western Cattle Egrets while Clements only recognises one species: Cattle Egret.

**Grey Heron**
Ardea cinerea jouyi
(1) 4 Kuala Selangor 16.6.
Purple Heron \( \textit{Ardea purpurea manilensis} \)  
(5) 1 between Kota Kinabalu and Mt Kinabalu 10.6, 1 Kinabatangan River 13.6, 25 Kinabatangan River 14.6, 4 Kuala Selangor 15.6 and 3 Kuala Selangor 16.6.

(Eastern) Great Egret \( \textit{Ardea alba modesta} \)  
(5) 4 between Kuala Lumpur and Kuala Selangor 6.6, 2 between Kota Kinabalu and Mt Kinabalu 10.6, 1 between Danum Valley and Gomantong 13.6, 12 Kinabatangan River 14.6 and 1 between Kuala Lumpur and Kuala Selangor 16.6.  
\textit{NOTE:} Great Egret is sometimes split into two species: Eastern and Western Great Egrets.

Little Egret \( \textit{Egretta garzetta} \)  
(3) 1 between Kuala Lumpur and Kuala Selangor 6.6, 3 Kuala Selangor 15.6 and 2 between Kuala Lumpur and Kuala Selangor 16.6.

Pacific Reef Heron \( \textit{Egretta sacra sacra} \)  
(1) 4 between Kuala Lumpur and Kuala Selangor 6.6.

Anhingas - \textit{Anhingidae}  
Oriental Darter (NT) \( \textit{Anhinga melanogaster} \)  
(2) 1 Danum Valley BRL 13.6 and 4 Kinabatangan River 14.6.  
\textit{NOTE:} Darter was recently split into 4 species: Anhinga and African, Oriental and Australasian Darters.

Hawks, Eagles, and Kites - \textit{Accipitridae}  
Black-winged (Black-shouldered) Kite \( \textit{Elanus caeruleus} \)  
(1) 1 between Danum Valley and Gomantong 13.6.  
\textit{NOTE:} This species was recently split from Black-shouldered (Black-winged) Kite, along with White-tailed and Australian (Black-shouldered) Kites.

Crested (Oriental) Honey Buzzard \( \textit{Pernis ptilorhynchus} \)  
(2) 1 between Lahad Datu and Danum Valley 10.6 and 1 Fraser's Hill 19.6.

Jerdon's Baza \( \textit{Aviceda jerdoni} \)  
(1) 2 Kinabatangan River 14.6.

Crested Serpent Eagle \( \textit{Spilornis cheela} \)  
(6) 1 Danum Valley BRL 12.6, 1 between Danum Valley and Gomantong 13.6, 1+1 heard between Danum Valley and Gomantong 13.6, up to 1 between Danum Valley and Gomantong 13-13.6, 3 Kinabatangan River 14.6, 1 Kuala Selangor 15.6, up to 1 New Gap Road, Fraser's Hill 19-20.6, up to 1 New Gap Road, Fraser's Hill 19-19.6 and up to 1 New Gap Road, Fraser's Hill 19-19.6.

Bat Hawk \( \textit{Macheiramphus alcinus alcinus} \)  
(2) 1 Gomantong Caves 13.6 and 1 Kinabatangan River 14.6.

Changeable Hawk-Eagle \( \textit{Nisaetus cirrhatus} \)  
(2) 1 Danum Valley BRL 10.6 and 1 between Danum Valley and Gomantong 13.6.  
\textit{NOTE:} Changeable Hawk-Eagle is sometimes split into two species: Crested and Changeable Hawk-Eagles.

Blyth's Hawk-Eagle \( \textit{Nisaetus alboniger} \)  
(2) 1 Mt Kinabalu NP 7.6 and 4 Fraser's Hill 19.6.

Wallace's Hawk-Eagle (VU) \( \textit{Nisaetus nanus} \)  
(2) 1 Danum Valley BRL 12.6 and 1 Kinabatangan River 15.6.

Rufous-bellied Hawk-Eagle \( \textit{Lophotriorchis kienerii formosus} \)  
(2) 2 between Danum Valley and Gomantong 13.6 and 1 New Gap Road, Fraser's Hill 19.6.

Rockjumper Birding Tours
Trip Report – RBL Malaysia & Borneo Rainforest Birds & Mammals 2017

(10) Up to 3 Mt Kinabalu NP 6-9.6, up to 15 Fraser's Hill 17-20.6, 1 Taman Negara Np 22.6 and 1 Taman Negara Np 23.6.

Common Emerald Dove  *Chalcophaps indica*

(6) 1 between Danum Valley and Gomantong 13.6, 1 Kinabatangan River 14.6, 1 Kuala Selangor 17.6, 1 Fraser's Hill 18.6, 1 New Gap Road, Fraser's Hill 19.6 and 2 between Fraser's Hill and Taman Negara 20.6.

*NOTE: Recently split into two species: Common and Pacific Emerald Doves.*

Zebra Dove  *Geopelia striata*

(4) 20 between Kuala Lumpur and Kuala Selangor 6.6, 4 Mt Kinabalu NP 10.6, 10 Kuala Selangor 16.6 and 10 Kuala Selangor 17.6.

Little Green Pigeon  *Treron olax*

(3) 4 Kuala Selangor 15.6, 1 Taman Negara Np 20.6 and 1 Taman Negara Np 21.6.

Pink-necked Green Pigeon  *Treron vernans*

(4) 2 between Kuala Lumpur and Kuala Selangor 6.6, 15 Kinabatangan River 14.6, 10 Kuala Selangor 16.6 and 15 Kuala Selangor 17.6.

Thick-billed Green Pigeon  *Treron curvirostra*

(2) 2 Taman Negara Np 21.6 and 2 Taman Negara Np 22.6.

Large Green Pigeon (VU)  *Treron capellei*

(4) Up to 3 Taman Negara Np 20-23.6.

Jambu Fruit Dove (NT)  *Ptilinopus jambu*

(1) 1 female Taman Negara Np 21.6.

Green Imperial Pigeon  *Ducula aenea*

(8) 8 between Kuala Lumpur and Kuala Selangor 6.6, 1 Danum Valley BRL 11.6, 1 heard Danum Valley BRL 12.6, 20 Kinabatangan River 14.6, 5 Kuala Selangor 15.6, 12 Kuala Selangor 17.6, 6 Taman Negara Np 20.6 and 3 Taman Negara Np 22.6.

Mountain Imperial Pigeon  *Ducula badia badia*

(3) 1 Mt Kinabalu NP 6.6, 1 Mt Kinabalu NP 8.6 and 1 heard Mt Kinabalu NP 9.6.

Cuckoos - *Cuculidae*

Greater Coucal  *Centropus sinensis*

(7) 1 Danum Valley BRL 11.6, 1 heard Danum Valley BRL 12.6, 1 heard Kinabatangan River 14.6, 1+2 heard Bukit Tinggi 16.6 and up to 2 Taman Negara Np 21-23.6.

Lesser Coucal  *Centropus bengalensis*

(2) 2 Kinabatangan River 14.6 and 1 between Kuala Lumpur and Kuala Selangor 16.6.

Raffles's Malkoha  *Rhinortha chlorophaea*

(3) 2 Danum Valley BRL 11.6, 1 Taman Negara Np 21.6 and 1 Taman Negara Np 23.6.

Red-billed Malkoha  *Zanclostomus javanicus*

(1) 2 seen at the lower section of Old Gap Road, Fraser’s Hill. 20.6.

Chestnut-breasted Malkoha  *Phaenicophaeus curvirostris*

(3) 4 Danum Valley BRL 11.6, 1 Taman Negara Np 21.6 and 1 Taman Negara Np 23.6.

Chestnut-bellied Malkoha (NT)  *Phaenicophaeus sumatranus*

(1) 2 Kuala Selangor 17.6.

Black-bellied Malkoha (NT)  *Phaenicophaeus diardi*
(3) 1 Poring Hot Springs 9.6, 2 Taman Negara Np 21.6 and 1 Taman Negara Np 22.6.

Asian Koel Eudynamys scolopaceus
(2) 1 heard Kuala Selangor 16.6 and 1 heard Kuala Selangor 17.6.

Violet Cuckoo Chrysococcyx xanthorhynchus xanthorhynchus
(2) 1 Poring Hot Springs 9.6 and 1 Danum Valley BRL 12.6.

Little Bronze Cuckoo (H) Chrysococcyx minutillus
(2) 1 heard Kuala Selangor 16.6 and 1 heard Kuala Selangor 17.6.

Banded Bay Cuckoo Cacomantis sonneratii
(1) 1 heard Kinabatangan River 14.6.

Plaintive Cuckoo Cacomantis merulinus
(10) 1 heard between Kuala Lumpur and Kuala Selangor 6.6, 1 heard Poring Hot Springs 9.6, up to 1 Danum Valley BRL 11-13.6, 1 heard Kinabatangan River 14.6 and up to 1 Taman Negara Np 20-23.6.
NOTE: Recently split into two species: Plaintive and Grey bellied Cuckoos.

Rusty-breasted Cuckoo (H) Cacomantis sepulcralis
(1) 1 heard Kuala Selangor 17.6.
NOTE: Recently split from Brush Cuckoo.

Square-tailed Drongo-Cuckoo Surniculus lugubris
(8) 1 heard Danum Valley BRL 10.6, 2 Danum Valley BRL 12.6, 1 heard Danum Valley BRL 13.6, 1 heard Kinabatangan River 14.6 and up to 2 Taman Negara Np 20-23.6.
NOTE: Drongo-Cuckoo was recently split into four species: Square-tailed, Fork-tailed, Moluccan and Philippine Drongo-Cuckoos.

Moustached Hawk-Cuckoo (NT) Hierococcyx vagans
(1) 2 Kuala Selangor 15.6.

Indian Cuckoo (H) Cuculus micropterus concretus
(1) 1 heard Bukit Tinggi 16.6.

Sunda Cuckoo Cuculus lepidus
(1) 1 Mt Kinabalu NP 8.6.
NOTE: Recently split from Oriental Cuckoo, along with Himalayan Cuckoo.

Owls - Strigidae

Mountain Scops Owl (H) Otus spilocephalus
(1) 1 heard Fraser's Hill 20.6.

Barred Eagle-Owl Bubo sumatranus
(1) 1 Danum Valley BRL 12.6.

Buffy Fish Owl Ketupa ketupu
(2) 1 heard Danum Valley BRL 10.6 and 2 Kinabatangan River 13.6.

Collared Owlet Glaucidium brodiei
(5) 1 Mt Kinabalu NP 9.6 and up to 3 Fraser's Hill 17-20.6.
NOTE: The Bornean and Sumatran races of Collared Owlet are likely to be split as Sunda Owlet.

Brown Hawk-Owl (Boobook) (H) Ninox scutulata
(1) 3 heard Taman Negara Np 23.6.

Frogmouths - Podargidae
**Trip Report – RBL Malaysia & Borneo Rainforest Birds & Mammals 2017**

<table>

13.6, 2 Bukit Tinggi 16.6, 10 Taman Negara Np 20.6, 15 Taman Negara Np 21.6 and 2 Taman Negara Np 23.6.

**Brown-backed Needletail**  
_Hirundapus giganteus giganteus_  
(1) 4 Fraser's Hill 20.6.

**House Swift**  
_Apus nipalensis_  
(4) 2 Bukit Tinggi 16.6, 4 between Kuala Selangor and Fraser's Hill 17.6 and up to 10 Fraser's Hill 19-20.6.

### Trogons - _Trogonidae_

**Red-naped Trogon (NT)**  
_Harpactes kasumba_  
(2) 1 Danum Valley BRL 12.6 and 2 Taman Negara Np 23.6.

**Diard's Trogon (NT)**  
_Harpactes diardi_  
(2) 1 Danum Valley BRL 11.6 and 1 Taman Negara Np 21.6.

**Whitehead's Trogon (NT) (BE)**  
_Harpactes whiteheadi_  
(2) 1 Mt Kinabalu NP 6.6 and 2 Mt Kinabalu NP 8.6.

**Cinnamon-rumped Trogon (NT) (H)**  
_Harpactes orrhophaeus_  
(1) 1 heard Taman Negara Np 22.6.

**Scarlet-rumped Trogon (NT)**  
_Harpactes duvaucelii_  
(6) 1 Danum Valley BRL 11.6, 1 Gomantong Caves 13.6, 1 heard Kinabatangan River 14.6, 1 heard Kuala Selangor 15.6, 1 heard Taman Negara Np 22.6 and 1 heard Taman Negara Np 23.6.

**Orange-breasted Trogon**  
_Harpactes oreskios_  
(1) 1 New Gap Road, Fraser's Hill 19.6.

**Red-headed Trogon**  
_Harpactes erythrocephalus_  
(2) 1 heard Fraser's Hill 19.6 and 1 Old Gap Road, Fraser's Hill 20.6.

### Rollers - _Coraciidae_

**Oriental Dollarbird**  
_Eurystomus orientalis_  
(4) 5 Kinabatangan River 14.6, 3 Kuala Selangor 15.6, 1 Kuala Selangor 17.6 and 1 Taman Negara Np 21.6.

**Kingfishers - _Alcedinidae_

**Rufous-collared Kingfisher (NT)**  
_Actenoides concretus_  
(1) 1 Taman Negara Np 23.6.

**Banded Kingfisher**  
_Lacedo pulchella_  
(1) 1 Danum Valley BRL 11.6.

**Stork-billed Kingfisher**  
_Pelargopsis capensis_  
(7) 1 heard Danum Valley BRL 12.6, 1 Danum Valley BRL 13.6, 4 Kinabatangan River 14.6, 2 Kuala Selangor 16.6, 2 Kuala Selangor 17.6, 1 heard Taman Negara Np 21.6 and 1 Taman Negara Np 23.6.

**White-throated Kingfisher**  
_Halcyon smyrnensis perpulchra_  
(5) 1 between Kuala Lumpur and Kuala Selangor 16.6, 1 Kuala Selangor 17.6, 2 between Fraser's Hill and Taman Negara 20.6, 1 Taman Negara Np 22.6 and 1 Taman Negara Np 23.6.

**Collared Kingfisher**  
_Todiramphus chloris_  
(5) 4 between Kuala Lumpur and Kuala Selangor 6.6, 1 between Lahad Datu and Danum Valley 10.6,
5 between Danum Valley and Gomantong 13.6, 2 Kinabatangan River 14.6 and 1 Kuala Selangor 15.6.

**Blue-eared Kingfisher** *Alcedo meninting meninting*
(2) 1 Kinabatangan River 13.6 and 1 Kinabatangan River 14.6.

**Oriental (Rufous-backed) Dwarf Kingfisher** *Ceyx erithaca*
(1) 1 Danum Valley BRL 12.6.

*NOTE: Oriental Dwarf Kingfisher is often split into two species: Rufous-backed and Black-backed Dwarf Kingfishers.*

---

**Bee-eaters - Meropidae**

**Red-bearded Bee-eater** *Nyctyornis amictus*
(3) 1 Danum Valley BRL 11.6, 1 Fraser's Hill 18.6, 1 New Gap Road, Fraser's Hill 19.6, 1+1 heard New Gap Road, Fraser's Hill 19.6 and up to 1 New Gap Road, Fraser's Hill 19-19.6.

**Blue-throated Bee-eater** *Merops viridis viridis*
(10) 1 between Kuala Lumpur and Kuala Selangor 6.6, up to 6 Danum Valley BRL 10-13.6, 20 Kinabatangan River 14.6, 2 Kinabatangan River 15.6, 2 between Kuala Lumpur and Kuala Selangor 16.6, 2+2 heard between Kuala Lumpur and Kuala Selangor 16.6, up to 2 between Kuala Lumpur and Kuala Selangor 16-16.6, 4 Taman Negara Np 22.6 and 2 Taman Negara Np 23.6.

---

**Hornbills - Bucerotidae**

**Rhinoceros Hornbill (NT)** *Buceros rhinoceros*
(5) Up to 4 Danum Valley BRL 10-12.6, 6 Kinabatangan River 14.6 and 1 heard Taman Negara Np 23.6.

**Great Hornbill (NT)** *Buceros bicornis*
(2) 1 heard Bukit Tinggi 16.6 and 2 Fraser's Hill 19.6.

**Helmeted Hornbill (NT)** *Rhinoplax vigil*
(1) 1 Danum Valley BRL 11.6 and 1 heard Danum Valley BRL 12.6.

**Oriental Pied Hornbill** *Anthracoceros albirostris*
(6) 1 between Kuala Lumpur and Kuala Selangor 6.6, 2 Gomantong Caves 13.6, 30 Kinabatangan River 14.6, 4 Kuala Selangor 15.6, 2 Kuala Selangor 16.6 and 2 Taman Negara Np 22.6.

**Black Hornbill** *Anthracoceros malayanus*
(4) 2 Danum Valley BRL 11.6, 1 between Danum Valley and Gomantong 13.6, 12 Kinabatangan River 14.6 and 2 Taman Negara Np 22.6.

**Bushy-crested Hornbill** *Anorrhinus galeritus*
(4) 2 between Danum Valley and Gomantong 13.6, 5 Kinabatangan River 14.6, 8 Kuala Selangor 15.6 and 4 Taman Negara Np 23.6.

**Wreathed Hornbill** *Rhyticeros undulatus*
(3) 4 Mt Kinabalu NP 6.6, 3 Mt Kinabalu NP 7.6 and 5 Danum Valley BRL 12.6.

**Wrinkled Hornbill (NT)** *Rhabdotorhinus corrugatus*
(3) 2 Danum Valley BRL 10.6, 1 Danum Valley BRL 12.6 and 12 Kinabatangan River 14.6.

---

**Asian Barbets - Megalaimidae**

**Fire-tufted Barbet** *Psilopogon pyrolophus*
(4) Up to 2 Fraser's Hill 17-20.6.

**Lineated Barbet** *Psilopogon lineatus*
(1) I heard Kuala Selangor 17.6.

**Golden-whiskered Barbet** *Psilopogon chrysopogon*
(7) I Poring Hot Springs 9.6, 1 heard Danum Valley BRL 10.6, 1 heard Danum Valley BRL 12.6, 1 heard Old Gap Road, Fraser's Hill 20.6 and up to 1 Taman Negara Np 21-23.6.

**Red-throated Barbet (NT)** *Psilopogon mystacophanos*
(8) I Poring Hot Springs 9.6, up to 1 Danum Valley BRL 10-13.6 and up to 1 Taman Negara Np 21-23.6.

**Black-browed Barbet** *Psilopogon oorti*
(2) 1 New Gap Road, Fraser's Hill 19.6 and 1 Old Gap Road, Fraser's Hill 20.6.

*NOTE: Recently split into two species: Black-browed and Annam Barbets.*

**Yellow-crowned Barbet (NT)** *Psilopogon henricii*
(2) 1 heard Danum Valley BRL 11.6 and 1 Taman Negara Np 21.6.

**Golden-naped Barbet (BE)** *Psilopogon pulcherrimus*
(3) Up to 1 Mt Kinabalu NP 7-9.6.

**Blue-eared Barbet** *Psilopogon duvaucelii*
(12) I Poring Hot Springs 9.6, up to 1 Danum Valley BRL 10-13.6, 3 Kinabatangan River 14.6, 1 Kuala Selangor 15.6, 1 New Gap Road, Fraser's Hill 19.6, 1 heard Old Gap Road, Fraser's Hill 20.6 and up to 1 Taman Negara Np 21-23.6.

**Coppersmith Barbet** *Psilopogon haemacephalus*
(2) 2 Kuala Selangor 16.6 and 4 Kuala Selangor 17.6.

**Brown Barbet (BE)** *Caloramphus fuliginosus*
(1) 2 Kinabatangan River 14.6.

*NOTE: Brown Barbet was recently split into two species: Brown and Sooty Barbets.*

**Sooty Barbet (NT)** *Caloramphus hayii*
(2) 1 Taman Negara Np 20.6 and 2 Taman Negara Np 22.6.

### Woodpeckers - Picidae

**Speckled Piculet** *Picumnus innominatus malayorum*
(1) 1 Fraser's Hill 19.6.

**Rufous Piculet** *Sasia abnormis*
(3) 1 heard Danum Valley BRL 11.6, 1 Kuala Selangor 15.6 and 2 Taman Negara Np 22.6.

**Grey-capped Pygmy Woodpecker** *Yungipicus canicapillus*
(1) 1 Danum Valley BRL 11.6.

**Sunda Pygmy Woodpecker** *Yungipicus moluccensis*
(2) 4 between Kuala Lumpur and Kuala Selangor 6.6 and 1 Kuala Selangor 16.6.

**White-bellied Woodpecker** *Dryocopus javensis*
(2) 1 Taman Negara Np 21.6 and 1 Taman Negara Np 23.6.

**Banded Woodpecker** *Chrysophlegma miniaceum*
(3) Up to 2 Taman Negara Np 20-22.6.

**Checker-throated Woodpecker (NT)** *Chrysophlegma mentale*
(2) 2 Mt Kinabalu NP 7.6 and 3 Bukit Tinggi 16.6.

**Greater Yellownape** *Chrysophlegma flavinucha*
(3) Up to 2 Fraser's Hill 18-20.6.

**Lesser Yellownape**
(1) 1 Fraser's Hill 20.6.

**Crimson-winged Woodpecker**
(2) 2 Bukit Tinggi 16.6 and 1 Taman Negara Np 23.6.

**Laced Woodpecker**
(2) 1 Kuala Selangor 16.6 and 2 Kuala Selangor 17.6.

**Olive-backed Woodpecker (NT) (H)**
(1) 1 heard Taman Negara Np 21.6.

**Common Flameback**
(1) 2 Kuala Selangor 16.6.

**Maroon Woodpecker**
(6) 1 Mt Kinabalu NP 7.6, 2 Mt Kinabalu NP 8.6, 1 heard Danum Valley BRL 12.6, 1 Kuala Selangor 15.6, 1 New Gap Road, Fraser's Hill 19.6 and 1 Taman Negara Np 22.6.

**Orange-backed Woodpecker**
(1) 2 Fraser's Hill 19.6.

**Rufous Woodpecker**
(4) 1 Kuala Selangor 16.6, 1 Taman Negara Np 20.6, 2 Taman Negara Np 22.6 and 1 Taman Negara Np 23.6.

**Buff-rumped Woodpecker (EN)**
(1) 2 Danum Valley BRL 11.6.

**Buff-necked Woodpecker (NT)**
(2) 1 heard Danum Valley BRL 12.6 and 2 Taman Negara Np 22.6.

**Great Slaty Woodpecker (VU)**
(1) 6 Taman Negara Np 21.6.

---

**Falcons and Caracaras - Falconidae**

**Black-thighed Falconet**
(4) Up to 3 Taman Negara Np 20-23.6.

**White-fronted (Bornean) Falconet (NT) (BE)**
(1) 4 Kuala Selangor 15.6.

---

**Old World Parrots - Psittaculidae**

**Blue-rumped Parrot (NT)**
(3) Up to 5 Taman Negara Np 21-23.6.

**Blue-naped Parrot (NT)**
(1) 15 at Philip Park, Kota Kinabalu 6.6

**Long-tailed Parakeet (NT)**
(2) 1 Kinabatangan River 14.6 and 14 Kinabatangan River 15.6.

**Blue-crowned Hanging Parrot**
(8) 4 Danum Valley BRL 11.6, 2 Danum Valley BRL 12.6, 10 Kinabatangan River 14.6, 2
Kinabatangan River 15.6 and up to 10 Taman Negara Np 20-23.6.

**Broadbills - Eurylaimidae**

**Green Broadbill (NT)**  
*Calyptomena viridis*  
(4) 1 heard Danum Valley BRL 11.6 and up to 5 Taman Negara Np 21-23.6.

**Whitehead's Broadbill (BE) (H)**  
*Calyptomena whiteheadi*  
(1) 1 heard Mt Kinabalu NP 7.6.

**Black-and-red Broadbill**  
*Cymbirhynchus macrorhynchos*  
(4) 4 Kinabatangan River 14.6 and up to 4 Taman Negara Np 21-23.6.

**Long-tailed Broadbill**  
*Psaromus dalhousiae*  
(2) 3 Fraser's Hill 18.6 and 18 New Gap Road, Fraser's Hill 19.6.

**Silver-breasted Broadbill**  
*Serilophus lunatus*  
(2) 2 Bukit Tinggi 16.6 and 1 heard New Gap Road, Fraser's Hill 19.6.

**Banded Broadbill**  
*Eurylaimus javanicus*  
(4) 1 Poring Hot Springs 9.6, 1 Danum Valley BRL 12.6, 1 heard Taman Negara Np 22.6 and 1 heard Taman Negara Np 23.6.

**Black-and-yellow Broadbill (NT)**  
*Eurylaimus ochromalus*  
(7) Up to 1 Danum Valley BRL 11-13.6, 1 heard Kinabatangan River 14.6 and up to 3 Taman Negara Np 21-23.6.

**Dusky Broadbill**  
*Corydon sumatranus*  
(2) 4 Danum Valley BRL 11.6 and 2 Danum Valley BRL 12.6.

**Pittas - Pittidae**

**Rusty-naped Pitta (H)**  
*Hydrornis oatesi deborah*  
(1) 1 heard Fraser's Hill 19.6.

**Blue-headed Pitta (BE)**  
*Hydrornis baudii*  
(4) Up to 1 Danum Valley BRL 10-13.6.

**Bornean Banded Pitta (BE)**  
*Hydrornis schwaneri*  
(2) 1 Danum Valley BRL 11.6 and 1 Danum Valley BRL 12.6.  
*NOTE: Banded Pitta was recently split into three species: Bornean, Malayan and Javan Banded Pittas.*

**Malayan Banded Pitta**  
*Hydrornis irena*  
(1) one male seen briefly in Taman Negara NP 22.6.  
*NOTE: See above.*

**Garnet Pitta**  
*Erythropitta granatina*  
(2) 1 heard Taman Negara Np 22.6 and 1 Taman Negara Np 23.6.  
*NOTE: See note below.*

**Black-crowned Pitta (BE)**  
*Erythropitta ussheri*  
(5) Up to 1 Danum Valley BRL 10-12.6, 1 heard Gomantong Caves 13.6 and 2 Kuala Selangor 15.6.  
*NOTE: Recently split into three species: Garnet, Graceful and Black-crowned Pittas.*

**Hooded Pitta**  
*Pitta sordida*  
(1) 1 Bilit area, Kinabatangan 14.6.
**Thornbills and Allies - Acanthizidae**

**Golden-bellied Gerygone**  
*Gerygone sulphurea*  
(2) 2 Kuala Selangor 16.6 and 2 heard Kuala Selangor 17.6.

**Woodshrikes and allies - Tephrodornithidae**

**Bar-winged Flycatcher-shrike**  
*Hemipus picatus*  
(2) 1 Fraser's Hill 18.6 and 10 New Gap Road, Fraser's Hill 19.6.

**Black-winged Flycatcher-shrike**  
*Hemipus hirundinaceus*  
(1) 1 Kinabatangan River 14.6.

**Large Woodshrike**  
*Tephrodornis virgatus*  
(2) 4 Danum Valley BRL 11.6 and 1 New Gap Road, Fraser's Hill 19.6.

**Rufous-winged Philentoma**  
*Philentoma pyrhoptera*  
(1) 1 Danum Valley BRL 11.6.

**Bristlehead - Pityriaseidae**

**Bornean Bristlehead (NT) (BE)**  
*Pityriasis gymnocephala*  
(2) 9 Danum Valley BRL 11.6 and 1 Danum Valley BRL 12.6.

**Woodswallows, butcherbirds and allies - Artamidae**

**White-breasted Woodswallow**  
*Artamus leucorynchus*  
(3) 6 between Kuala Lumpur and Kuala Selangor 6.6, 2 between Danum Valley and Gomantong 13.6 and 8 Kuala Selangor 15.6.

**Ioras - Aegithinidae**

**Common Iora**  
*Aegithina tiphera*  
(5) 3 between Kuala Lumpur and Kuala Selangor 6.6, 2 Kinabatangan River 14.6, 2 Kuala Selangor 16.6, 2 Kuala Selangor 17.6 and 2 Taman Negara Np 22.6.

**Green Iora (NT)**  
*Aegithina viridissima*  
(4) 2 Poring Hot Springs 9.6, 1 between Lahad Datu and Danum Valley 10.6, 1+1 heard between Lahad Datu and Danum Valley 10.6, up to 1 between Lahad Datu and Danum Valley 10-10.6, 1 Kinabatangan River 14.6 and 4 Taman Negara Np 23.6.

**Great Iora (H)**  
*Aegithina lafresnayei lafresnayei*  
(1) 1 heard Taman Negara Np 23.6.

**Cuckoo-shrikes - Campephagidae**

**Javan Cuckoo Shrike**  
*Coracina javensis*  
(3) Up to 3 Fraser's Hill 18-20.6.

**Sunda Cuckoo Shrike**  
*Coracina larvata*  
(2) 1 Mt Kinabalu NP 7.6 and 1 Mt Kinabalu NP 9.6.

**Lesser Cuckoo Shrike**  
*Coracina fimbriata*  
(3) 1 Danum Valley BRL 10.6, 2 Danum Valley BRL 11.6 and 1 Taman Negara Np 20.6.

**Pied Triller**  
*Lalage nigra*
(3) 2 between Kuala Lumpur and Kuala Selangor 6.6, 2 Kuala Selangor 16.6 and 2 Kuala Selangor 17.6.

**Fiery Minivet (NT)**  
_Pericrocotus igneus_  
(1) 2 Danum Valley BRL 11.6.

**Grey-chinned Minivet**  
_Pericrocotus solaris_  
(3) 4 Mt Kinabalu NP 7.6, 6 New Gap Road, Fraser's Hill 19.6, 6+6 heard New Gap Road, Fraser's Hill 19.6, up to 6 New Gap Road, Fraser's Hill 19-19.6 and 12 Fraser's Hill 20.6.

**Scarlet Minivet**  
_Pericrocotus speciosus_  
(1) 3 Old Gap Road, Fraser's Hill 20.6.  
**NOTE:** Scarlet Minivet was recently split into two species: Scarlet and Orange Minivets.

### Whistlers and Allies - *Pachycephalidae*

**Mangrove Whistler**  
*_Pachycephala cinerea cinerea_  
(2) 1 Kuala Selangor 16.6 and 1 heard Kuala Selangor 17.6.

**Bornean Whistler (BE)**  
*_Pachycephala hypoxantha_  
(3) Up to 8 Mt Kinabalu NP 6-8.6.

### Shrikes - *Laniidae*

**Long-tailed Shrike**  
*_Lanius schach_  
(1) 1 between Mt Kinabalu and Poring 9.6.

### Vireos - *Vireonidae*

**White-bellied Erpornis (Yuhina)**  
*_Erpornis zantholeuca_  
(4) 1 Mt Kinabalu NP 6.6, 2 Bukit Tinggi 16.6, 2 New Gap Road, Fraser's Hill 19.6, 2+1 heard New Gap Road, Fraser's Hill 19.6, up to 2 New Gap Road, Fraser's Hill 19-19.6 and 1 Old Gap Road, Fraser's Hill 20.6.

**Blyth's Shrike-babbler**  
*_Pteruthius aeralatus_  
(5) Up to 4 Mt Kinabalu NP 7-9.6, 4 Fraser's Hill 19.6 and 2 Fraser's Hill 20.6.  
**NOTE:** Recently split into four species, Blyth's being one of them.

**Black-eared Shrike-Babbler**  
*_Pteruthius melanotis tahanensis_  
(2) 1 heard Fraser's Hill 18.6 and 1 Fraser's Hill 20.6.

### Old World Orioles - *Oriolidae*

**Dark-throated Oriole (NT)**  
*_Oriolus xanthonotus_  
(2) 4 Danum Valley BRL 11.6 and 1 Taman Negara Np 21.6.

**Black-naped Oriole**  
*_Oriolus chinensis_  
(3) 1 Mt Kinabalu NP 8.6, 4 Kuala Selangor 16.6 and 2 Kuala Selangor 17.6.

### Drongos - *Dicruridae*

**Ashy Drongo**  
*_Dicrurus leucophaeus_  
(2) 1 Mt Kinabalu NP 6.6 and 1 Mt Kinabalu NP 9.6.

**Bronzed Drongo**  
*_Dicrurus aeneus_  
(2) 2 Fraser's Hill 18.6 and 2 Taman Negara Np 20.6.
Lesser Racket-tailed Drongo \( Dicrurus remifer \)
(3) 4 Fraser's Hill 18.6, 2 New Gap Road, Fraser's Hill 19.6, 2+2 heard New Gap Road, Fraser's Hill 19.6, up to 2 New Gap Road, Fraser's Hill 19-19.6 and 1 Old Gap Road, Fraser's Hill 20.6.

Hair-crested Drongo \( Dicrurus hottentottus \)
(4) Up to 3 Mt Kinabalu NP 6-9.6.

Greater Racket-tailed Drongo \( Dicrurus paradiseus \)
(6) 1 Danum Valley BRL 11.6, 1 Kuala Selangor 15.6 and up to 4 Taman Negara Np 20-23.6.

**Fantails - **Rhipiduridae**

White-throated Fantail \( Rhipidura albicollis \)
(7) Up to 4 Mt Kinabalu NP 6-9.6, 6 Fraser's Hill 18.6, 2 New Gap Road, Fraser's Hill 19.6, 2+2 heard New Gap Road, Fraser's Hill 19.6, up to 2 New Gap Road, Fraser's Hill 19-19.6 and 2 Fraser's Hill 20.6.

Malaysian Pied Fantail \( Rhipidura javanica \)
(7) 2 between Lahad Datu and Danum Valley 10.6, 1 Danum Valley BRL 11.6, 2 Danum Valley BRL 13.6, 4 Kinabatangan River 14.6 and up to 5 Kuala Selangor 15-17.6.

NOTE: Pied Fantail was recently split into two species: Malaysian and Philippine Pied Fantails.

Spotted Fantail \( Rhipidura perlata \)
(2) 1 Danum Valley BRL 11.6 and 2 Danum Valley BRL 12.6.

**Monarch Flycatchers - **Monarchidae**

Black-naped Monarch \( Hypothymis azurea \)
(5) 1 Danum Valley BRL 11.6, 1 Danum Valley BRL 12.6, 2 Kuala Selangor 15.6, 1 Taman Negara Np 21.6 and 1 Taman Negara Np 23.6.

Blyth's (Oriental) Paradise Flycatcher \( Terpsiphone affinis \)
(5) 1 Danum Valley BRL 11.6, 2 Danum Valley BRL 12.6 and up to 2 Taman Negara Np 21-23.6.

NOTE: Asian Paradise Flycatcher’s been recently split into three species: Blyth’s, Amur and Indian Paradise Flycatchers.

**Crows, Jays, and Magpies - **Corvidae**

Crested Jay (NT) \( Platylophus galericulatus \)
(1) 1 Taman Negara Np 21.6.

NOTE: Crested Jay has recently been placed in its own unique and monotypic family.

Black Magpie (NT) \( Platysmurus leucopterus \)
(6) Up to 3 Danum Valley BRL 11-13.6, 1 heard Kinabatangan River 14.6, 3 Taman Negara Np 22.6 and 1 Taman Negara Np 23.6.

NOTE: Black Magpie is often split into two species: Bornean and Malaysian Black Magpies.

Common Green Magpie \( Cissa chinensis \)
(2) 1 Fraser's Hill 19.6 and 1 Fraser's Hill 20.6.

Bornean Green Magpie (BE) \( Cissa jefferyi \)
(2) 5 Mt Kinabalu NP 7.6 and 2 Mt Kinabalu NP 8.6.

Bornean Treepie (BE) \( Dendrocitta cinerascens \)
(4) Up to 4 Mt Kinabalu NP 6-9.6.

House Crow \( Corvus splendens \)
(2) 12 between Kuala Lumpur and Kuala Selangor 16.6 and 10 Kuala Selangor 17.6.

**Slender-billed Crow**  \( \text{Corvus enca} \)

(7) 2 between Lahad Datu and Danum Valley 10.6, up to 5 Danum Valley BRL 11-13.6, 12 Kinabatangan River 14.6, 8 Kuala Selangor 15.6 and 6 between Kuala Lumpur and Kuala Selangor 16.6.

**Large-billed Crow**  \( \text{Corvus macrorhynchos macrorhynchos} \)

(4) 2 Kuala Selangor 16.6 and up to 2 Taman Negara Np 21-23.6.

*NOTE: IOC splits Large-billed Crow into three species: Indian Jungle, Eastern Jungle and Large-billed Crows but Clements does not recognise this split.*

**Rail-babbler - Eupetidae**

(Malaysian) Rail-babbler (NT) (H)  \( \text{Eupetes macrocerus} \)

(1) 1 heard Taman Negara Np 22.6.

*NOTE: Rail-babbler is likely to be placed in the same family as the jewel-babblers and quail-thrushes.*

**Chickadees and Tits - Paridae**

**Sultan Tit**  \( \text{Melanochlora sultanea flavocristata} \)

(2) 4 Fraser's Hill 18.6 and 2 New Gap Road, Fraser's Hill 19.6.

**Bulbs - Pycnonotidae**

**Straw-headed Bulbul (VU)**  \( \text{Pycnonotus zeylanicus} \)

(4) Up to 1 Danum Valley BRL 11-13.6 and 2 Taman Negara Np 21.6.

**Black-headed Bulbul**  \( \text{Pycnonotus atriceps} \)

(2) 4 Poring Hot Springs 9.6 and 1 Taman Negara Np 23.6.

**Black-crested Bulbul**  \( \text{Pycnonotus flaviventris caecilii} \)

(3) 4 Bukit Tinggi 16.6, 4 New Gap Road, Fraser's Hill 19.6 and 6 Old Gap Road, Fraser's Hill 20.6.

*NOTE: Black-crested Bulbul was recently split into several different species.*

**Scaly-breasted Bulbul (NT)**  \( \text{Pycnonotus squamatus} \)

(1) 2 Danum Valley BRL 11.6.

**Grey-bellied Bulbul (NT)**  \( \text{Pycnonotus cyaniventris} \)

(3) 1 Bukit Tinggi 16.6, 2 Taman Negara Np 21.6 and 2 Taman Negara Np 22.6.

**Red-whiskered Bulbul**  \( \text{Pycnonotus jocosus} \)

(1) 4 at Kuala Selangor 16.6.

**Stripe-throated Bulbul**  \( \text{Pycnonotus finlaysoni finlaysoni} \)

(4) 1 New Gap Road, Fraser's Hill 19.6 and up to 6 Taman Negara Np 21-23.6.

**Yellow-vented Bulbul**  \( \text{Pycnonotus goiavier} \)

(12) 10 between Kuala Lumpur and Kuala Selangor 6.6, 2 between Mt Kinabalu and Poring 9.6, 2 Mt Kinabalu NP 10.6, 1 Danum Valley BRL 11.6, 4 between Danum Valley and Gomantong 13.6, 8 Kinabatangan River 14.6, 20 Kuala Selangor 15.6, 10 between Kuala Lumpur and Kuala Selangor 16.6, 10+10 heard between Kuala Lumpur and Kuala Selangor 16-16.6, 20 Kuala Selangor 17.6, 4 Fraser's Hill 18.6, 2 Taman Negara Np 21.6 and 2 Taman Negara Np 22.6.

**Olive-winged Bulbul**  \( \text{Pycnonotus plumosus} \)
(2) 1 Kinabatangan River 14.6 and 6 Kuala Selangor 17.6.

**Cream-vented Bulbul** *Pycnonotus simplex*
(1) 1 Taman Negara Np 21.6.

**Asian Red-eyed Bulbul** *Pycnonotus brunneus*
(9) 1 Poring Hot Springs 9.6, 1 between Lahad Datu and Danum Valley 10.6, 1+1 heard between Lahad Datu and Danum Valley 10.6, up to 1 between Lahad Datu and Danum Valley 10-10.6, 3 Danum Valley BRL 11.6, 1 Danum Valley BRL 12.6, 2 Kinabatangan River 14.6 and up to 12 Taman Negara Np 20-23.6.

**Spectacled Bulbul** *Pycnonotus erythropthalmos*
(6) 10 Poring Hot Springs 9.6, 12 Danum Valley BRL 11.6, 4 Danum Valley BRL 12.6, 8 Kinabatangan River 14.6, 8 Taman Negara Np 21.6 and 2 Taman Negara Np 22.6.

**Ochraceous Bulbul** *Alophoixus ochraceus*
(8) Up to 2 Mt Kinabalu NP 6-9.6, 2 Bukit Tinggi 16.6, 1 Fraser's Hill 18.6, 2 Fraser's Hill 19.6 and 4 Old Gap Road, Fraser's Hill 20.6.

**Grey-cheeked Bulbul** *Alophoixus bres*
(2) 2 Danum Valley BRL 12.6 and 3 Taman Negara Np 23.6.

**Yellow-bellied Bulbul** *Alophoixus phaeocephalus*
(3) 4 Danum Valley BRL 11.6, 2 Taman Negara Np 22.6 and 4 Taman Negara Np 23.6.

**Hairy-backed Bulbul** *Tricholestes criniger*
(4) 2 Danum Valley BRL 11.6, 3 Danum Valley BRL 13.6, 4 Taman Negara Np 21.6 and 3 Taman Negara Np 23.6.

**Buff-vented Bulbul (NT)** *Iole olivacea*
(6) 1 between Lahad Datu and Danum Valley 10.6, 1+1 heard between Lahad Datu and Danum Valley 10.6, up to 1 between Lahad Datu and Danum Valley 10-10.6, 1 New Gap Road, Fraser's Hill 19.6 and up to 6 Taman Negara Np 20-23.6.

**Mountain Bulbul** *Ixos mcclellandii peracensis*
(3) 1 Bukit Tinggi 16.6, 4 Fraser's Hill 18.6, 2 New Gap Road, Fraser's Hill 19.6, 2+8 heard New Gap Road, Fraser's Hill 19.6 and up to 8 New Gap Road, Fraser's Hill 19-19.6.

**Streaked Bulbul (NT)** *Ixos malaccensis*
(5) 2 Poring Hot Springs 9.6, 2 Danum Valley BRL 11.6 and up to 2 Taman Negara Np 21-23.6.

**Cinereous Bulbul** *Hemixos cinereus*
(2) 4 Bukit Tinggi 16.6 and 8 New Gap Road, Fraser's Hill 19.6.

*NOTE: Cinereous Bulbul was recently split from Ashy Bulbul.*

---

**Swallows - Hirundinidae**

**Pacific Swallow** *Hirundo tahitica*
(18) 20 between Kuala Lumpur and Kuala Selangor 6.6, 10 Mt Kinabalu NP 7.6, 20 Mt Kinabalu NP 8.6, 20 Poring Hot Springs 9.6, 20 between Lahad Datu and Danum Valley 10.6, 20+20 heard between Lahad Datu and Danum Valley 10.6, up to 20 between Lahad Datu and Danum Valley 10-10.6, up to 30 Danum Valley BRL 11-13.6, 40 Kinabatangan River 14.6, 20 Kuala Selangor 15.6, 20 between Kuala Lumpur and Kuala Selangor 16.6, 20+20 heard between Kuala Lumpur and Kuala Selangor 16.6, up to 20 between Kuala Lumpur and Kuala Selangor 16-16.6, 20 Kuala Selangor 17.6, 20+20 heard Kuala Selangor 17.6, up to 20 Kuala Selangor 17-17.6, 10 Fraser's Hill 18.6, 15 New Gap Road, Fraser's Hill 19.6, 15+20 heard New Gap Road, Fraser's Hill 19.6, up to 20 New Gap Road, Fraser's
Hill 19-19.6, 10+10 heard Fraser's Hill 20.6 and up to 15 Taman Negara Np 21-23.6.

**Rufous-bellied Swallow**  
*Cecropis badia*  
(3) 2 between Kuala Selangor and Fraser's Hill 17.6, 4 Fraser's Hill 18.6 and 2 The Gap, Fraser's Hill 20.6.  
*NOTE: Rufous-bellied Swallow was recently split from Striated Swallow.*

**Cupwings - Pnoepygidae**

- **Pygmy Wren-babbler (Cupwing) (H)**  
  *Pnoepyga pusilla*  
  (1) 1 heard Fraser's Hill 18.6.

**Bush-Warblers and Allies - Cettiidae**

- **Yellow-bellied Warbler**  
  *Abroscopus superciliaris*  
  (3) 2 Bukit Tinggi 16.6, 2 Fraser's Hill 18.6 and 2 Old Gap Road, Fraser's Hill 20.6.

- **Mountain Tailorbird**  
  *Phyllergates cuculatus*  
  (6) 1 Mt Kinabalu NP 6.6, 1 Mt Kinabalu NP 8.6, 1 heard Mt Kinabalu NP 9.6 and up to 2 Fraser's Hill 18-20.6.

- **Sunda Bush Warbler**  
  *Horornis vulcanius*  
  (2) 5 Mt Kinabalu NP 7.6 and 1 heard Mt Kinabalu NP 8.6.

- **Bornean Stubtail (BE)**  
  *Urosphena whiteheadi*  
  (2) 1 Mt Kinabalu NP 8.6 and 1 Mt Kinabalu NP 9.6.

**Leaf-Warblers - Phylloscopidae**

- **Mountain Leaf Warbler**  
  *Phylloscopus trivirgatus*  
  (4) Up to 12 Mt Kinabalu NP 6-9.6.

- **Chestnut-crowned Warbler**  
  *Seicercus castaniceps*  
  (3) Up to 4 Fraser's Hill 18-20.6.

- **Yellow-breasted Warbler**  
  *Seicercus montis*  
  (4) Up to 12 Mt Kinabalu NP 6-9.6.

**Cisticolas and Allies - Cisticolidae**

- **Rufescent Prinia**  
  *Prinia rufescens extrema*  
  (1) 1 Fraser's Hill 18.6.

- **Yellow-bellied Prinia**  
  *Prinia flaviventris*  
  (6) 2 between Kuala Lumpur and Kuala Selangor 6.6, 1 Poring Hot Springs 9.6, 1 heard Danum Valley BRL 13.6, 1 heard Kinabatangan River 14.6, 1 heard Kuala Selangor 16.6 and 1 Kuala Selangor 17.6.

- **Common Tailorbird**  
  *Orthotomus sutorius*  
  (4) 1 Fraser's Hill 20.6 and up to 2 Taman Negara Np 21-23.6.

- **Dark-necked Tailorbird**  
  *Orthotomus atrogularis*  
  (8) 1 Kuala Selangor 15.6, 2 Bukit Tinggi 16.6, 1 heard Kuala Selangor 17.6, 3 New Gap Road, Fraser's Hill 19.6, 1 heard Fraser's Hill 20.6 and up to 1 Taman Negara Np 21-23.6.

- **Rufous-tailed Tailorbird**  
  *Orthotomus sericeus*  
  (7) 1 Poring Hot Springs 9.6, up to 2 Danum Valley BRL 10-12.6, 2 Gomantong Caves 13.6, 2 Bilit area, Kinabatangan 14.6 and 1 heard Kuala Selangor 15.6.
Ashy Tailorbird           Orthotomus ruficeps
(8) 1 Mt Kinabalu NP 6.6, 1 heard Danum Valley BRL 11.6, 1 heard Danum Valley BRL 12.6, 1 Kinabatangan River 14.6, up to 6 Kuala Selangor 15-17.6 and 1 heard Old Gap Road, Fraser's Hill 20.6.

Babblers - Timaliidae

Chestnut-backed Scimitar Babbler           Pomatorhinus montanus
(5) 1 heard Danum Valley BRL 12.6, 1 heard Danum Valley BRL 13.6, 1 heard New Gap Road, Fraser's Hill 19.6, 1 Taman Negara Np 21.6 and 1 heard Taman Negara Np 22.6.

Grey-throated Babbler           Stachyris nigriceps
(5) Up to 15 Mt Kinabalu NP 6-9.6 and 8 New Gap Road, Fraser's Hill 19.6.

Chestnut-rumped Babbler (NT)           Stachyris maculata
(3) Up to 2 Danum Valley BRL 11-13.6.

Black-throated Babbler (NT)           Stachyris nigriceps
(3) 2 Kuala Selangor 15.6, 2 Taman Negara Np 21.6 and 2 Taman Negara Np 23.6.

Chestnut-winged Babbler           Stachyris erythroptera
(5) 4 Danum Valley BRL 11.6, 2 Bukit Tinggi 16.6 and up to 8 Taman Negara Np 21-23.6.

Rufous-fronted Babbler           Stachyridopsis rufifrons
(2) 1 Bukit Tinggi 16.6 and 1 heard Fraser's Hill 18.6.

Golden Babbler           Stachyridopsis chrysaea
(3) Up to 12 Fraser's Hill 18-20.6.

Pin-striped Tit-Babbler           Macronus gularis
(6) 12 Bukit Tinggi 16.6, 1 heard New Gap Road, Fraser's Hill 19.6 and up to 10 Taman Negara Np 20-23.6.

Bold-striped Tit-Babbler           Macronus bornensis
(5) Up to 2 Danum Valley BRL 11-13.6, 2 Kinabatangan River 14.6 and 4 Kuala Selangor 15.6.

NOTE: Striped Tit-Babbler was recently split into two species: Pin-striped and Bold-striped Tit-Babblers.

Fluffy-backed Tit-Babbler           Macronus ptilosus
(2) 2 Danum Valley BRL 10.6 and 1 heard Danum Valley BRL 11.6.

Fulvettas and Ground Babblers - Pellorneidae

Brown Fulvetta (NT)           Alcippe bruneicauda
(2) 2 Danum Valley BRL 11.6 and 4 Danum Valley BRL 13.6.

Mountain Fulvetta           Alcippe peracensis peracensis
(3) Up to 30 Fraser's Hill 18-20.6.

Marbled Wren-Babbler           Napothera marmorata
(1) 1 Fraser's Hill 18.6.

Streaked Wren-Babbler           Napothera brevicaudata leucosticta
(1) 1 Fraser's Hill 18.6.

Mountain Wren-Babbler (BE)           Napothera crassa
(2) 2 Mt Kinabalu NP 8.6 and 4 Mt Kinabalu NP 9.6.

Abbott’s Babbler           Malacocincla abbotti
(2) 2 Kuala Selangor 17.6 and 3 Taman Negara Np 21.6.

**Short-tailed Babbler (NT)**  
*Malacocincla malaccensis*  
(2) 2 Taman Negara Np 21.6 and 1 heard Taman Negara Np 23.6.

**Moustached Babbler**  
*Malacopteron magnirostre*  
(4) 1 heard Danum Valley BRL 13.6 and up to 1 Taman Negara Np 21-23.6.

**Sooty-capped Babbler (NT)**  
*Malacopteron affine*  
(1) 1 Danum Valley BRL 11.6.

**Scaly-crowned Babbler**  
*Malacopteron cinereum*  
(4) 2 Poring Hot Springs 9.6 and up to 8 Danum Valley BRL 11-13.6.

**Rufous-crowned Babbler (NT)**  
*Malacopteron magnum*  
(6) Up to 4 Danum Valley BRL 11-13.6 and up to 1 Taman Negara Np 21-23.6.

**White-chested Babbler (NT) (H)**  
*Trichastoma rostratum*  
(1) 1 heard Kinabatangan River 14.6.

**Ferruginous Babbler**  
*Trichastoma bicolor*  
(2) 1 heard Danum Valley BRL 12.6 and 1 Danum Valley BRL 13.6.

**Striped Wren-Babbler (NT) (H)**  
*Kenopia striata*  
(1) 1 heard Danum Valley BRL 12.6.

**Buff-breasted Babbler**  
*Pellorneum tickelli tickelli*  
(3) 1 Bukit Tinggi 16.6, 1 Fraser's Hill 18.6 and 1 Fraser's Hill 19.6.

**Temminck's Babbler**  
*Pellorneum pyrrogenys*  
(2) 2 Mt Kinabalu NP 7.6 and 1 Mt Kinabalu NP 9.6.

**Black-capped Babbler**  
*Pellorneum capistratum*  
(1) 3 Danum Valley BRL 13.6.

---

**Laughingthrushes - Leiothrichidae**

**Sunda Laughingthrush**  
*Garrulax palliatus*  
(3) Up to 6 Mt Kinabalu NP 6-8.6.

**Chestnut-capped Laughingthrush**  
*Garrulax mitratus*  
(4) Up to 40 Fraser's Hill 17-20.6.

**Chestnut-hooded Laughingthrush (BE)**  
*Garrulax treacheri*  
(5) Up to 30 Mt Kinabalu NP 6-10.6.

**Black Laughingthrush**  
*Garrulax lugubris*  
(1) 2 New Gap Road, Fraser's Hill 19.6.

**Bare-headed Laughingthrush (BE)**  
*Garrulax calvus*  
(2) 1 heard Mt Kinabalu NP 7.6 and 8 Mt Kinabalu NP 8.6.  
*NOTE: Bare-headed Laughingthrush was recently split from Black Laughingthrush.*

**Malayan Laughingthrush**  
*Trochalopteron peninsulae*  
(3) Up to 2 Fraser's Hill 17-19.6.  
*NOTE: Malayan Laughingthrush was recently split from Chestnut-crowned Laughingthrush.*

**Blue-winged Minla (Siva)**  
*Minla cyanouroptera sordidior*  
(3) Up to 4 Fraser's Hill 18-20.6.

**Silver-eared Mesia (Leiothrix)**  
*Leiothrix argentauris*
(3) Up to 20 Fraser's Hill 18-20.6.  

**Long-tailed Sibia**  
*Heterophasia picaoides*  
(4) Up to 30 Fraser's Hill 17-20.6.

**Yuhinas, White-eyes, and Allies - Zosteropidae**

- **Chestnut-crested Yuhina (BE)**  
  *Yuhina everetti*  
  (4) Up to 60 Mt Kinabalu NP 6-9.6.

- **Mountain Blackeye (BE)**  
  *Chlorocharis emiliae*  
  (2) 4 Mt Kinabalu NP 7.6 and 1 Mt Kinabalu NP 9.6.

- **Oriental White-eye**  
  *Zosterops palpebrosus*  
  (2) 2 Kuala Selangor 16.6 and 6 Kuala Selangor 17.6.

- **Black-capped White-eye**  
  *Zosterops atricapilla*  
  (3) Up to 20 Mt Kinabalu NP 6-8.6.

- **Everett's White-eye**  
  *Zosterops everetti*  
  (2) 20 between Lahad Datu and Danum Valley 10.6 and 20 New Gap Road, Fraser's Hill 19.6.

**Fairy-bluebirds - Irenidae**

- **Asian Fairy-bluebird**  
  *Irena puella*  
  (7) Up to 2 Danum Valley BRL 10-12.6 and up to 6 Taman Negara Np 20-23.6.

**Nuthatches - Sittidae**

- **Velvet-fronted Nuthatch**  
  *Sitta frontalis*  
  (3) 2 Danum Valley BRL 11.6, 2 Bukit Tinggi 16.6 and 2 New Gap Road, Fraser's Hill 19.6.

- **Blue Nuthatch**  
  *Sitta azurea*  
  (1) 2 Fraser's Hill 20.6.

**Starlings - Sturnidae**

- **Asian Glossy Starling**  
  *Aplonis panayensis*  
  (7) 30 between Kuala Lumpur and Kuala Selangor 6.6, 20 between Lahad Datu and Danum Valley 10.6, up to 20 Kuala Selangor 15-17.6, 20 between Fraser's Hill and Taman Negara 20.6 and 6 Taman Negara Np 22.6.

- **Common Hill Myna**  
  *Gracula religiosa*  
  (7) 10 Danum Valley BRL 11.6, 10 Kinabatangan River 14.6, 1 heard Kuala Selangor 15.6 and up to 2 Taman Negara Np 20-23.6.

- **Javan Myna (I)**  
  *Acridotheres javanicus*  
  (8) 30 between Danum Valley and Gomantong 13.6, 40 Kuala Selangor 15.6, 30 between Kuala Lumpur and Kuala Selangor 16.6, 30+20 heard between Kuala Lumpur and Kuala Selangor 16.6, up to 30 between Kuala Lumpur and Kuala Selangor 16-16.6, 10 Kuala Selangor 17.6, 10+20 heard Kuala Selangor 17.6, up to 20 Kuala Selangor 17-17.6, 20 between Fraser's Hill and Taman Negara 20.6 and up to 12 Taman Negara Np 21-23.6.

- **Crested Myna (I)**  
  *Acridotheres cristatellus*  
  2 at Prince Philip Park, Kota Kinabalu 6.6.
Common Myna \( Acridotheres tristis \)
(4) 15 between Fraser's Hill and Taman Negara 20.6 and up to 2 Taman Negara Np 21-23.6.

**Thrushes and Allies - Turdidae**

Everett's Thrush (NT) (BE) \( Zoothera everetti \)
(1) 1 Mt Kinabalu NP 9.6.

**Old World Flycatchers - Muscicapidae**

Oriental Magpie-Robin \( Copsychus saularis \)
(13) 1 heard between Kuala Lumpur and Kuala Selangor 6.6, 1 Mt Kinabalu NP 8.6, 1 between Lahad Datu and Danum Valley 10.6, 1 between Danum Valley and Gomantong 13.6, 2 Kinabatangan River 14.6, 4 Bukit Tinggi 16.6, 2 Kuala Selangor 17.6, 2+4 heard Kuala Selangor 17.6, up to 4 Kuala Selangor 17-17.6, 8 Fraser's Hill 18.6, 2 New Gap Road, Fraser's Hill 19.6, 2+4 heard New Gap Road, Fraser's Hill 19.6, up to 4 New Gap Road, Fraser's Hill 19-19.6, 4+2 heard Fraser's Hill 20.6 and up to 6 Taman Negara Np 21-23.6.

Rufous-tailed Shama \( Copsychus pyrropygus \)
(2) 1 heard Danum Valley BRL 12.6 and 1 heard Kuala Selangor 15.6.

White-rumped Shama \( Copsychus malabaricus \)
(5) 2 Bukit Tinggi 16.6, 2 New Gap Road, Fraser's Hill 19.6 and up to 2 Taman Negara Np 21-23.6.

White-crowned Shama (BE) \( Copsychus stricklandii \)
(5) 2 Poring Hot Springs 9.6, up to 2 Danum Valley BRL 11-13.6 and 1 Bilit area, Kinabatangan 14.6.

**NOTE:** White-crowned Shama was recently split from White-rumped Shama.

Rufous-browed Flycatcher \( Anthippe solitaris \)
(4) Up to 4 Fraser's Hill 17-20.6.

Hill Blue Flycatcher \( Cyornis banyumas \)
(2) 2 New Gap Road, Fraser's Hill 19.6 and 1 Fraser's Hill 20.6.

Tickell's Blue Flycatcher \( Cyornis tickelliae \)
(1) 1 Taman Negara Np 22.6.

Sunda (Large-billed) Blue Flycatcher (VU) \( Cyornis caerulatus \)
(1) 1 Danum Valley BRL 12.6.

Bornean Blue Flycatcher (BE) \( Cyornis superbus \)
(1) 3 Danum Valley BRL 12.6.

Malaysian Blue Flycatcher (NT) \( Cyornis turcosus \)
(7) 1 Poring Hot Springs 9.6, up to 1 Danum Valley BRL 10-13.6, 1 Bilit area, Kinabatangan 14.6 and 2 Taman Negara Np 21.6.

Mangrove Blue Flycatcher \( Cyornis rufigastra \)
(2) 2 Kuala Selangor 16.6 and 2 Kuala Selangor 17.6.

Large Niltava \( Niltava grandis decapiens \)
(1) 1 Fraser's Hill 18.6.

Verditer Flycatcher \( Eumyias thalassinus thalassoides \)
(3) 3 Danum Valley BRL 11.6, 1 heard Bukit Tinggi 16.6 and 1 heard Fraser's Hill 18.6.

Indigo Flycatcher \( Eumyias indigo \)
(2) 5 Mt Kinabalu NP 7.6 and 6 Mt Kinabalu NP 8.6.
Lesser Shortwing  
*Brachypteryx leucophrys*  
(3) Up to 1 Fraser's Hill 17-19.6.

White-browed Shortwing  
*Brachypteryx montana*  
(3) Up to 1 Mt Kinabalu NP 7-9.6.

*NOTE: The White-browed Shortwing complex is likely to soon be split up into various different species, one of them being Bornean Shortwing.*

Eyebrowed Jungle Flycatcher (BE)  
*Vauriella gularis*  
(3) Up to 2 Mt Kinabalu NP 7-9.6.

White-tailed Robin  
*Myiomela leucura*  
(1) 1 male at Fraser’s Hill 18.6.

Slaty-backed Forktail  
*Enicurus schistaceus*  
(4) 1 Fraser's Hill 17.6, 1 Fraser's Hill 18.6, 1+1 heard Old Gap Road, Fraser's Hill 19.6 and 2 New Gap Road, Fraser's Hill 20.6.

Bornean Forktail (BE)  
*Enicurus borneensis*  
(3) Up to 2 Mt Kinabalu NP 7-9.6.

*NOTE: Bornean Forktail was recently split into two species: White-crowned and Bornean Forktails.*

Bornean Whistling Thrush (BE)  
*Myophonus borneensis*  
(3) Up to 5 Mt Kinabalu NP 7-9.6.

Snowy-browed Flycatcher  
*Ficedula hyperythra*  
(3) Up to 4 Mt Kinabalu NP 6-8.6.

Little Pied Flycatcher  
*Ficedula westermannii*  
(5) 2 Mt Kinabalu NP 6.6, 4 Mt Kinabalu NP 8.6, 1 heard Mt Kinabalu NP 9.6, 4 Fraser's Hill 18.6 and 2 Fraser's Hill 20.6.

---

**Leafbirds - *Chloropseidae***

Greater Green Leafbird  
*Chloropsis sonnerati*  
(5) 2 between Lahad Datu and Danum Valley 10.6, 2 Danum Valley BRL 11.6 and up to 4 Taman Negara Np 21-23.6.

Lesser Green Leafbird (NT)  
*Chloropsis cyanopogon*  
(5) 1 between Lahad Datu and Danum Valley 10.6, up to 2 Danum Valley BRL 11-13.6 and 1 Bukit Tinggi 16.6.

Blue-winged Leafbird  
*Chloropsis cochinchinensis*  
(3) 4 Bukit Tinggi 16.6, 4 New Gap Road, Fraser's Hill 19.6 and 4 The Gap, Fraser's Hill 20.6.

Bornean Leafbird (BE)  
*Chloropsis kinabaluensis*  
(1) 1 heard Mt Kinabalu NP 9.6.

*NOTE: Bornean Leafbird was recently split from Blue-winged Leafbird.*

Orange-bellied Leafbird  
*Chloropsis hardwickii malayana*  
(3) 1 heard Fraser's Hill 18.6, 6 New Gap Road, Fraser's Hill 19.6 and 2 The Gap, Fraser's Hill 20.6.

---

**Flowerpeckers - *Dicaeidae***

Yellow-breasted Flowerpecker  
*Prionochilus maculatus*  
(2) 2 between Lahad Datu and Danum Valley 10.6 and 2 Danum Valley BRL 12.6.

Crimson-breasted Flowerpecker  
*Prionochilus percussus*
### Trip Report – RBL Malaysia & Borneo Rainforest Birds & Mammals 2017

<table>

Trip Report – RBL Malaysia & Borneo Rainforest Birds & Mammals 2017

(1) 1 between Lahad Datu and Danum Valley 10.6.

**Spectacled Spiderhunter** *Arachnothera flavigaster*
(4) 2 Poring Hot Springs 9.6, 1 between Lahad Datu and Danum Valley 10.6, 2 between Danum Valley and Gomantong 13.6 and 1 Bukit Tinggi 16.6.

**Yellow-eared Spiderhunter** *Arachnothera chrysogenys*
(2) 1 between Lahad Datu and Danum Valley 10.6 and 2 between Danum Valley and Gomantong 13.6.

**Grey-breasted Spiderhunter** *Arachnothera modesta*
(2) 1 heard Taman Negara Np 22.6 and 2 Taman Negara Np 23.6.

**Bornean (Streaky-breasted) Spiderhunter (BE)** *Arachnothera everetti*
(4) Up to 1 Danum Valley BRL 10-13.6.

*NOTE:* Bornean Spiderhunter was recently split from Streaky-breasted Spiderhunter.

**Streaked Spiderhunter** *Arachnothera magna*
(4) 2 Fraser's Hill 17.6, 4 Fraser's Hill 18.6, 3 New Gap Road, Fraser's Hill 19.6, 3+6 heard New Gap Road, Fraser's Hill 19.6, up to 6 New Gap Road, Fraser's Hill 19-19.6 and 2+1 heard Fraser's Hill 20.6.

---

**Old World Sparrows - Passeridae**

**Eurasian Tree Sparrow** *Passer montanus*
(15) 30 between Kuala Lumpur and Kuala Selangor 6.6, 10 Mt Kinabalu NP 7.6, 10 Mt Kinabalu NP 8.6, 10 between Mt Kinabalu and Poring 9.6, 10+20 heard between Mt Kinabalu and Poring 9.6, up to 20 between Mt Kinabalu and Poring 9-9.6, 20 between Lahad Datu and Danum Valley 10.6, up to 10 Danum Valley BRL 11-13.6, 5 Bilit area, Kinabatangan 14.6, 20 Kuala Selangor 15.6, 20 between Kuala Lumpur and Kuala Selangor 16.6, 20+30 heard between Kuala Lumpur and Kuala Selangor 16.6, up to 30 between Kuala Lumpur and Kuala Selangor 16-16.6, 20 Kuala Selangor 17.6, 20+10 heard Kuala Selangor 17.6, up to 20 Kuala Selangor 17-17.6 and up to 4 Taman Negara Np 21-23.6.

**Java Sparrow (I)** *Lonchura oryzivora*
1 at Prince Philip Park, Kota Kinabalu 6.6.

**Weavers and Allies - Ploceidae**

**Baya Weaver** *Ploceus philippinus infortunatus*
(2) 1 between Kuala Lumpur and Kuala Selangor 16.6, 1+4 heard between Kuala Lumpur and Kuala Selangor 16.6, up to 4 between Kuala Lumpur and Kuala Selangor 16-16.6 and 20 between Fraser's Hill and Taman Negara 20.6.

**Waxbills and Allies - Estrildidae**

**White-rumped Munia** *Lonchura striata subsquamicollis*
(1) 1 Kuala Selangor 16.6.

**Dusky Munia (BE)** *Lonchura fuscans*
(8) 2 between Kuala Lumpur and Kuala Selangor 6.6, 15 Poring Hot Springs 9.6, 20 between Lahad Datu and Danum Valley 10.6, 20+2 heard between Lahad Datu and Danum Valley 10.6, up to 20 between Lahad Datu and Danum Valley 10-10.6, up to 20 Danum Valley BRL 11-13.6, 6 Kinabatangan River 14.6 and 8 Kuala Selangor 15.6.

**Scaly-breasted Munia (Nutmeg Mannikin)** *Lonchura punctulata*
(1) 4 Kuala Selangor 16.6.

**Chestnut (Black-headed) Munia** *Lonchura atricapilla*
(1) 4 in Kota Kinabalu 6.6.

**White-headed Munia** *Lonchura maja*

(1) 2 between Kuala Lumpur and Kuala Selangor 16.6.

**Wagtails and Pipits - Motacillidae**

**Paddyfield (Oriental) Pipit** *Anthus rufulus*

(1) 2 between Kuala Lumpur and Kuala Selangor 16.6.

**Mammals (36 in total: 36 seen)**

IUCN codes: CR = Critically endangered, EN = Endangered, VU = Vulnerable, NT = Near Threatened, DD = Data Deficient

**Tree Shrews - Tupaiidae**

**Common Treeshrew** *Tupaia glis*

(1) 1 Taman Negara Np 21.6.

**Mountain Treeshrew** *Tupaia montana*

(2) 1 Mt Kinabalu NP 6.6 and 1 Mt Kinabalu NP 8.6.

**Old World monkeys - Cercopithecidae**

**Crab-eating Macaque** *Macaca fascicularis fascicularis*

(11) 20 between Lahad Datu and Danum Valley 10.6, 6 Danum Valley BRL 12.6, 2 Kinabatangan River 13.6, 80 Kinabatangan River 14.6, 20 Kuala Selangor 16.6, 20 Kuala Selangor 17.6, 10 New Gap Road, Fraser's Hill 19.6, 20 between Fraser's Hill and Taman Negara 20.6 and up to 20 Taman Negara Np 21-23.6.

**Southern Pig-tailed Macaque** *Macaca nemestrina*

(5) 2 between Lahad Datu and Danum Valley 10.6, 10+5 heard Danum Valley BRL 13.6, 10 Kinabatangan River 14.6, 4 between Kuala Selangor and Fraser's Hill 17.6 and 10 New Gap Road, Fraser's Hill 20.6.

**Proboscis Monkey** *Nasalis larvatus larvatus*

(2) 1 Kinabatangan River 13.6 and 60 Kinabatangan River 14.6.

**Maroon Leaf Monkey** *Presbytis rubicunda*

(3) 4 Danum Valley BRL 10.6, 2 Danum Valley BRL 12.6 and 1 Danum Valley BRL 13.6.

**Silvery Lutung** *Trachypithecus cristatus*

(2) 50 Kinabatangan River 14.6 and 6 Kuala Selangor 17.6.

**Dusky Leaf-monkey** *Trachypithecus obscurus*

(2) 10 Bukit Tinggi 16.6 and 4 New Gap Road, Fraser's Hill 19.6.

**Gibbons, Siamang - Hylobatidae**

**Lar Gibbon** *Hylobates lar vestitus*

(2) 1 heard The Gap, Fraser's Hill 20.6 and 2 Taman Negara Np 21.6.

**Müller's Bornean Gibbon** *Hylobates muelleri*

(4) Up to 1 Danum Valley BRL 11-13.6 and 1 heard Kuala Selangor 15.6.

**Siamang** *Symphalangus syndactylus*
(3) I heard Bukit Tinggi 16.6, I heard New Gap Road, Fraser's Hill 19.6 and 3 New Gap Road, Fraser's Hill 20.6.

**Gorilla, Chimpanzees, Orangutan - Hominidae**

**Bornean Orangutan** *Pongo pygmaeus morio*
(4) Up to 2 Danum Valley BRL 10-12.6 and 1 Kinabatangan River 14.6.

**Colugos – Cynocephalidae**

**Malayan Colugo** *Galeopterus variegatus*
(2) A mother and baby at Borneo Rainforest Lodge, Danum Valley 11.6. I seen on Bumbun Blau Trail, Taman Negara NP 22.6.

**Squirrels - Sciuridae**

**Thomas's Flying Squirrel** *Aeromys thomasi*
(1) 1 Danum Valley Conservation Area 11.6.

**Kinabalu Squirrel** *Callosciurus baluensis*
(1) 1 Mt Kinabalu NP 7.6.

**Gray-bellied Squirrel** *Callosciurus caniceps*
(6) 1 Fraser's Hill 18.6, 1 New Gap Road, Fraser's Hill 19.6 and up to 10 Taman Negara Np 20-23.6.

**Pallas's Squirrel** *Callosciurus erythraeus*
(3) Up to 2 Fraser's Hill 17-19.6.

**Plantain Squirrel** *Callosciurus notatus*
(4) 2 between Kuala Lumpur and Kuala Selangor 6.6, 1 Kuala Selangor 15.6, 2 Bukit Tinggi 16.6 and 3 Kuala Selangor 17.6.

**Borneo Black-banded Squirrel** *Callosciurus orestes*
(3) Up to 4 Mt Kinabalu NP 6-8.6.

**Prevost's Squirrel** *Callosciurus prevostii*
(6) 2 Poring Hot Springs 9.6, up to 2 Danum Valley BRL 10-13.6 and 1 Kinabatangan River 14.6.

**Bornean Mountain Ground Squirrel** *Dremomys everetti*
(3) Up to 6 Mt Kinabalu NP 7-9.6.

**Least Pygmy Squirrel** *Exilisciurus exilis*
(2) 1 Poring Hot Springs 9.6 and 1 Danum Valley BRL 11.6.

**Tufted Pygmy Squirrel** *Exilisciurus whiteheadi*
(1) 1 Mt Kinabalu NP 9.6.

**Common Giant Flying Squirrel** *Petaurista petaurista*
(1) 1 Danum Valley Conservation Area 11.6.

**Black Giant Squirrel** *Ratufa bicolor*
(2) 1 Fraser's Hill 18.6 and 1 New Gap Road, Fraser's Hill 19.6.

**Jentink's Squirrel** *Sundasciurus jentinki*
(4) Up to 20 Mt Kinabalu NP 6-9.6.

**Slender Squirrel** *Sundasciurus tenuis*
(1) 1 Bukit Tinggi 16.6.
Himalayan Striped Squirrel \textit{Tamiops macclellandii}
(5) 4 Bukit Tinggi 16.6, 3 Fraser's Hill 17.6, 5 Fraser's Hill 18.6, 4 New Gap Road, Fraser's Hill 19.6, 4+4 heard New Gap Road, Fraser's Hill 19.6, up to 4 New Gap Road, Fraser's Hill 19-19.6 and 2 Fraser's Hill 20.6.

**Cats - Felidae**

Leopard Cat \textit{Prionailurus bengalensis}
(1) 1 Danum Valley BRL 11.6.

**Civets, Genets - Viverridae**

Malay Civet \textit{Viverra tangalunga}
(1) 2 Danum Valley Conservation Area 11.6.

**Weasels, Skunks, Otters - Mustelidae**

Malay Weasel \textit{Mustela nudipes}
(3) 1 Mt Kinabalu NP 8.6, 1 Danum Valley BRL 12.6 and 1 Taman Negara Np 21.6.

**Pigs - Suidae**

Bearded Pig \textit{Sus barbatus}
(3) 1 Danum Valley BRL 10.6, 2 Danum Valley BRL 12.6 and 3 Bilit area, Kinabatangan 14.6.

Wild Boar \textit{Sus scrofa}
(3) 10 Fraser's Hill 20.6, 8 Taman Negara Np 22.6 and 10 Taman Negara Np 23.6.

**Chevrotains - Tragulidae**

Lesser Oriental Chevrotain \textit{Tragulus kanchil}
(1) 1 Taman Negara Np 23.6.

Greater Oriental Chevrotain \textit{Tragulus napu}
(1) 1 Danum Valley BRL 12.6.

**Deer - Cervidae**

Sambar \textit{Rusa unicolor}
(1) 1 Danum Valley Conservation Area 11.6.
