Tour Summary
Our tour started off with a visit to the great Mabamba Swamp in search of one of the great birds of the World, the magnificent Shoebill! We boarded our three canoes and set off on a fabulous trip through the papyrus-lined swamp. It wasn’t too long before the shout of ‘Shoebill’ went up, and we approached a little closer to get great views and photo opportunities. As is usual, the Shoebill was standing motionless, waiting to spot some unwary prey before lunging into the water after it. We had spent a good while watching it, and taken a bunch of photos and were about to leave when it moved and, suddenly, as quick as a flash, it lunged into the water and came out with a good sized lung fish which must have been sufficient sustenance for the day. After swallowing it, he shook himself in satisfaction and then flew off, giving us splendid views. What a sighting! Well, this set the tone for the trip, as we seemed to luck into so many wonderful experiences, as well as great sightings of seldom-seen species. Read on for more highlights ….

Other great sightings at Mabamba included a pair of White-backed Duck, Knob-billed Duck, a juvenile Rufous-bellied Heron, African Marsh Harrier, several Lesser Moorhen, loads of Long-toed Lapwing, Blue-breasted Bee-eater, handsome Papyrus Gonolek, Blue Swallow, localised Weyns’s Weaver and Cape Wagtail.

Delighted with our morning session, we set off for the edge of Lake Victoria, where we found Orange Weaver and then enjoyed our packed lunch. Thereafter, we travelled to Jinja for a two-night stay, stopping briefly at Mabira Forest en route. In the evening, we celebrated a great day over dinner with some ice-cold beer and wine, before settling in for a good night’s rest.
After breakfast, we travelled to Mabira Forest for the day. Shortly before departing our lodge, we found a splendid Double-toothed Barbet and Grey Kestrel. A little further on a Black Bishop in full breeding plumage showed well. Mabira Forest was active, as is often the case, and we notched up some great sightings. Of particular note was a confiding White-spotted Flufftail, which nonchalantly walked across a road, and whilst watching for the flufftail, a seldom-seen and very impressive Chequered Elephant Shrew crossed the road in the same area. *What a bit of luck!*

Other noteworthy sightings whilst exploring the various tracks through the forest included the huge Great Blue Turaco, African Emerald Cuckoo, Cassin’s Spinetail, our first of many African Pygmy Kingfisher, White-throated Bee-eater, African Pied Hornbill, Yellow-throated Tinkerbird, Hairy-breasted Barbet, Least Honeyguide calling from his regular perch, Buff-spotted Woodpecker, perched Grey Parrot, African Shrike-Flycatcher, Chestnut Wattle-eye, Lowland Sooty Boubou, elusive Red-tailed Bristlebill, a pair of Tit Hylia building a nest, Fraser’s Rufous Thrush, Red-capped Robin-Chat, tiny Forest Robin and White-breasted Nigrita.

From Jinja, we travelled to Masindi for the night, stopping at Luwero Swamp en route. Shortly before leaving our lodge, we notched up splendid Black-headed Gonolek and African Grey Woodpecker. At Mabira Forest, a short walk netted some great birds, including a pair of Purple-throated Cuckooshrike, Western Oriole, Grey-headed Sunbird, nest building Yellow-mantled Weaver and Red-headed Malimbe. There was significant agriculture happening at Luwero Swamp, which was quite concerning; however, after just a short walk we netted the sought-after Marsh Widowbird and African Openbill, plus several raptors, including Western Banded Snake Eagle, Long-crested Eagle, Lizard Buzzard, and Shikra, as well as impressive flocks of Cardinal Quelea.

The following day was spent enjoying the birding at the “Royal Mile” in Budongo Forest. En route we stopped off at some scrub, which produced a bounty of species, including a pair of Red-necked Falcon, Marsh Tchagra, Whistling Cisticola, Brown Babbler, Bronze-tailed Starling, Brown-backed Scrub Robin, Variable Sunbird, Red-headed Quelea, Red-collared Widowbird, Black-bellied Firefinch, Magpie Mannikin and Cabanis’s Bunting.

Entering the forest, we scored a whole slew of new species, including Crested Guineafowl, Dusky Long-tailed Cuckoo, Chocolate-backed, Blue-breasted and African Dwarf Kingfisher, numerous White-thighed Hornbill, Cassin’s Honeybird, Yellow-crested Woodpecker, scope views of the tiny Ituri Chimpanzee.
Batis, Dusky Tit, Western Nicator, Spotted Greenbul, Chestnut-capped Flycatcher and Rufous-crowned Eremomela. *It was such a treat to bird in such a pleasant climate and without any biting insects.*

In the late afternoon, we returned to our lodge as a thunderstorm put a stop to any further birding. At dinner, we enjoyed some Indian cuisine before settling down for a good night’s rest.

From Masindi, we travelled to Murchison Falls National Park, with a stop at Kaniyo Pabidi en route. This proved very worthwhile, as we enjoyed good views of Nahan’s Partridge, Afep Pigeon, Narina Trogon, Puvel’s Illadopsis at its only East African site and Red-tailed Ant Thrush. An added bonus was finding two male Chimpanzee on the ground, which gave splendid views.

On the way to Murchison Falls, we notched up Grey Penduline Tit, Spotted Palm Thrush and Red-winged Pytilia before enjoying time at the falls, where we watched in awe as the Nile passed through a nine metre gap. On the rocky islands around the falls, we were delighted to see several Rock Pratincoles tending chicks. On our night drive back to the lodge, we added Greyish Eagle-Owl and Pennant-winged Nightjar.

The following morning, we set off on a wonderful boat trip down the Nile to the Lake Albert delta, where our two drivers met us, and we then continued on a game drive on the north bank of the Nile. The boat trip was excellent, with good sightings of many species and chances for photography as well.

Our first stop on the game drive was to try and get better views of Shoebill – which, fortunately, we were able to do. It was great to see this bizarre bird up close and personal. Numerous species were seen today, both on the boat trip and game drive. Some of these include Yellow-billed and impressive Saddle-billed Stork, huge Goliath and Purple Heron, another splendid Shoebill, Ruppell’s Vulture, majestic Bateleur, Martial Eagle, Dark Chanting Goshawk, Grey Crowned Crane, Spotted Thick-knee, Black-headed Lapwing, Mourning Collared and Vinaceous Dove, White-crested Turaco from the boat – *a great find since we’d missed it earlier* – Grey-headed Kingfisher, Swallow-tailed, Red-throated and Northern Carmine Bee-eater, Black Scimitarbill, Abyssinian Ground Hornbill, Black-billed Barbet, Yellow-billed Shrike, Piapiac, White-headed Saw-wing, Red-winged Grey Warbler, shy Dusky Babbler, Silverbird and Speckle-fronted Weaver. On top of this, we had superb mammal sightings, with herds of several thousand Kob, loads of Elephant, Buffalo, hundreds of Hippopotamus, Rothschild’s Giraffe and Oribi, plus several huge Nile Crocodile. It had been a marvelous day and we returned to our lodge elated, adding a cracking Heuglin’s Francolin en route.

*Foxy Cisticola by David Hoddinott*
Leaving Murchison, we made our way back to Masindi, passing the Butiaba Escarpment and Busingiro Forest en route. Shortly after leaving the park, we notched up several spectacular Northern Red Bishop in full breeding regalia, a stunning male Green-winged Pytilia, Black-rumped and Black-faced Waxbill, Village Indigobird and White-rumped Seedeeater. At the Butiaba Escarpment, we added Olive Bee-eater, Nubian Woodpecker, Western Black-headed Batis, Foxy Cisticola, elusive Green-backed Eremomela, Lesser Blue-eared Starling and cracking male Western Violet-backed Sunbird. After enjoying our packed lunch, we continued to Busingiro, where we found several Sabine’s Spinetail and a confiding Green Hylia before making our way to Masindi.

From Masindi, we travelled to the farm bush around Murro and here we enjoyed some fabulous birding! Almost upon arrival, we were greeted by a fabulous flock of Red-headed Lovebird, followed by an African Goshawk displaying overhead and a confiding Black Cuckoo singing its heart out, Black-and-white Shrike-Flycatcher, Brown-crowned Tchagra, showy Snowy-crowned Robin-Chat, rare Orange-tufted Sunbird, Compact Weaver and smashing Grey-headed Oliveback.

From Murro, we continued on the lengthy drive to Kibale National Park. En route we stopped off briefly at Sebitole and found a pair of Black-billed Turaco, Mottled Spinetail and Blue-throated Roller before making our way to our wonderful lodgings in Kibale Forest.

The following day, we spent our time in Kibale Forest, where we set off at dawn in search of the elusive Green-breasted Pitta – alas, no sound or sign of it. We did, however, luck out with fantastic views of Chimpanzees both on the ground and up a fruiting fig tree. It was wonderful to spend the time with these fantastic mammals! Some of our star sightings during our walks through this stunning forest included the rare White-naped Pigeon, Blue Malkoha, iridescent Black Bee-eater, Brown-eared Woodpecker, Petit’s Cuckoo-shrike, Honeyguide Greenbul, Narrow-tailed Starling and dainty Cassin’s Flycatcher.

The next morning, we visited Bigodi Swamp, where we enjoyed a fabulous time! A walk around the swamp and through some swamp forest yielded many great birds, including a fabulous confiding Ross’s Turaco, two Red-chested Cuckoo, a pair of Yellow-billed Barbet, rare Speckle-breasted Woodpecker, Meyer’s Parrot, Brown-throated Wattle-eye, beautiful African Blue Flycatcher, elusive White-tailed Ant Thrush, Brown-backed Scrub Robin, Olive-bellied Sunbird and Black-crowned Waxbill.
After lunch, we made our way to Queen Elizabeth National Park. We stopped briefly at a crater lake en route, where we found Giant Kingfisher and then continued on to the park offices where, on arrival, we enjoyed scope views of the tricky Red-shouldered Cuckoo-shrike and a flock of White-winged Widowbirds dashing by. Entering the park, we found a female Black-bellied Bustard, then an African Crake popped out on the roadside and this was shortly followed by a superb White-tailed Lark. *Shew, what a day!* We then checked into the wonderful Mweya Lodge, overlooking the Kazinga Channel.

An early start the next morning saw us on a game drive, where we added a good selection of birds, including Red-necked Spurfowl, Lesser Flamingo, Palmnut Vulture, Black-chested and Brown Snake Eagle, Western Marsh Harrier, Senegal and African Wattled Lapwing, Temminck’s Courser, Common Scimitarbill, Black-lobed Babbler and Southern Red Bishop. The afternoon was set aside for a boat trip on the Kazinga Channel. What an amazing trip with wonderful sightings of both mammals and birds and such diversity. In the two and a half hours, we notched up 70 species of birds, including African Spoonbill, Pink-backed Pelican, Water Thick-knee, Black Coucal, Lesser Swamp Warbler and enjoyed great views of African Buffalo, African Elephant, Hippopotamus, Waterbuck and Giant Forest Hog. On our early evening drive, we found Verreaux’s Eagle-Owl and Square-tailed Nightjar to end yet another tremendous day.

From Queen Elizabeth National Park, we continued south to Bwindi Impenetrable Forest. En route we passed through Ishasha, the southern sector of the park, and were delighted to find three tree climbing Lions in a huge fig tree. It was great to be so close to these impressive cats! Our drive through Ishasha produced great birds such as African Cuckoo-Hawk, Gabar Goshawk, Little Sparrowhawk, Pearl-spotted Owlet, Trilling Cisticola, Stout Cisticola and Golden-breasted Bunting.

Excitement mounted as we approached Buhoma, the home to Mountain Gorilla. The following day, most of the group tracked gorillas and those not tracking went birding. By all accounts, the tracking was a great success, even though some had to put in a real effort to reach the Gorillas. Lots of photos were taken and stories of their adventures were revealed over dinner. Over the two full days in the lower Buhoma section of the park, we added many bird species, including a bunch of Albertine Rift Endemics. These included striking Bar-tailed Trogon, Cinnamon-chested Bee-eater, family parties of White-headed Wood Hoopoe, Elliot’s Woodpecker, African Broadbill, superb Many-colored, Bocage’s and Luhder’s Bushshrike, recently described Willard’s Sooty Boubou, White-bellied Crested Flycatcher, Ansorge’s Greenbul, highly sought-after Neumann’s Warbler, Red-faced Woodland Warbler, Black-faced Rufous Warbler, Stuhlmann’s

From Buhoma, we made our way up the “Neck” to the upper section, Ruhija, which is a bird haven. Over the two days in the area, we added numerous species, including a good number of Albertine Rift Endemics. Some of our star sightings included Handsome Francolin, Little Grebe, Woolly-necked Stork, Mountain Buzzard, African Olive Pigeon, Western Tinkerbird, Dwarf Honeyguide, Tullberg’s Woodpecker, Olive Woodpecker, rare and localised Grauer’s Broadbill, Ruwenzori Batis, beautiful Doherty’s Bushshrike, Mountain Sooty Boubou, Grey Cuckoo-shrike, White-necked Raven, White-tailed Blue Flycatcher, Stripe-breasted Tit, Olive-breasted and Yellow-streaked Greenbul, elusive White-browed Crombec, Ruwenzori Hill Babbler, Grauer’s Warbler, Mountain Yellow Warbler, Grauer’s Swamp Warbler, Ruwenzori, Mountain Masked, Black-throated and Chestnut-throated Apalis, Slender-billed, Waller’s and Sharpe’s Starling, Yellow-eyed Black Flycatcher, Archer’s Ground Robin, White-starred Robin, Blue-headed and fantastic Regal Sunbird, Strange Weaver and Dusky Crimsonwing.

From the south, we travelled east to Lake Mburo National Park for two nights. En route we noted several African Black Swift and at a large swamp, the elusive Papyrus Canary. Our final stop was again a great success, where we notched up one of the key species for the trip, the shy and retiring African Finfoot. A pair put on a great show for us. Returning from the boat trip, our local guides took us to see an amazing sighting of an African Rock Python swallowing a monkey which it had just killed, a very seldom-seen sighting in the wild. We also added a number of new birds, including the sought-after Brown-chested Lapwing, Bare-faced Go-away-bird, Levaillant’s Cuckoo, Lilac-breasted Roller, Greater Blue-eared Starling, Familiar Chat, Red-headed Weaver and the rare Red-faced and Crested Barbet.

And so ended another fantastic trip to this birding hotspot! Thanks must go to a wonderful group of enthusiastic and fun participants, as well as a superb ground operations team. I am very much looking forward to travelling with you all again!
