Malaysia & Borneo
Rainforest Birds & Mammals I
20th May to 8th June 2018 (20 days)
Trip Report

Black-and-yellow Broadbill by Rich Lindie

Compiled by Tour Leader, Rich Lindie
Tour Summary

This year’s first tour of Malaysia & Borneo will go down in Rockjumper’s history books as one of the most successful ever. Not only did we record the highest number of species on any of our summer tours to the area, this included the highest number of regional endemics thus far recorded on our tours! What’s more is, many of these were seen exceptionally well. And who can forget the mammal sightings we enjoyed – very much a highlight of any visit to Borneo. Intrigued yet? Read on for more...

To say we started the first day of the tour with a bang would be an understatement – not only did we see two of the most sought-after birds in the region – Ferruginous Partridge and Mountain Peacock-Pheasant – they were just about the first birds on which we all laid eyes... AND they were lifers for everyone in the group – myself included! It couldn't have been easier, though both these species have more recently become part of a growing number of Asian 'chickens' which are now easier than ever, thanks to a little help from regular feeding with mealworms. All the same, we enjoyed the sighting and the great views as much, if not more, than if we'd just bumped into them – indeed, not harassing the birds with recordings is always preferable. Anyway, enough about the chickens... We also enjoyed seeing a couple of Ochraceous Bulbuls and several Oriental Magpie-Robins down at the feeding station; while some birding back on the main road yielded several great birds and mammals, too. Of the former, the most noteworthy include a handsome Black-and-yellow Broadbill, a flock of Bushy-crested Hornbills, Sooty Barbet, Blue-eared Barbet, Crimson-breasted Flowerpecker, Banded Bay Cuckoo, Dark-necked Tailorbird, and Blue-winged Leafbirds.
Our post-lunch birding session wasn't too shabby either, when a stroll down Kendang Pass bagged us several small groups and pairs of Rhinoceros Hornbill, a pair of Pale Blue Flycatchers, several Scaly-breasted Bulbuls, Grey-bellied Bulbul, Spectacled Bulbul, White-bellied Erpornis, and an Asian Fairy-bluebird. Dinner was an equally interesting affair, as we had to wait until exactly 19:20 before we were allowed to put food in our mouths – to pay respects to local Ramadan customs, of course.

The next day started with almost as much of a bang as the first, though more for the quantity of birds we saw than any major quality. This, of course, was because we began the morning with a stop at a wetland. The Kundang Wetlands, in this case. First to fall were, in no particular order, Yellow-bellied Prinia, Lesser Coucal, White-breasted Waterhen, Yellow Bittern, White-throated Kingfisher, Blue-tailed Bee-eater, and Zebra Dove; while Greater Painted-snipe and Pink-necked Green Pigeon took a little more time to find. And then began the wait for White-headed Munia – a few of which were eventually found! Unfortunately, not all of us were together at the time, though it was a great sighting and a nice addition to the list. Shortly thereafter, we found ourselves birding the parking lot of Taman Alam, where we had wonderful views of Ruby-cheeked Sunbird, Olive-backed Sunbird, Brown-throated Sunbird, Coppersmith Barbet, Laced Woodpecker, Collared Kingfisher, and Common Flameback before lunch overlooking the river, and then a break from the heat at our nearby hotel.

Returning to Taman Alam for the afternoon, we saw several of the same birds seen earlier in the day, as well as several new ones, including a handful of Ashy Tailorbirds, a Rusty-breasted Cuckoo, a couple of Little Bronze Cuckoos, an Abbott's Babbler, Pied Triller, Thick-billed Green Pigeon, and a handsome Mangrove Blue Flycatcher. Following dinner, we heard a Sunda Scops Owl, and had our first looks at Large-tailed Nightjar.
Wanting to settle the score with Sunda Scops Owl, we started the following day about an hour before dawn when, as if right on cue, the owl started calling in the same area as the night before. Just as we started making our way towards it, however, we were distracted by a pair of Buffy Fish Owls – not that anyone complained. The scops owl called again a couple more times after we had had our looks at the fish owl, but soon went quiet, so we decided to leave it for a little while and wandered over to an open area, where we saw a few more Large-tailed Nightjars and heard the scops owl start up again. Returning to the first site just as the early dawn light started to arrive, it seemed as though time had run out when, very suddenly, a gorgeous little male Sunda Scops Owl flew right in to have a good look at us, where it promptly sat for a magical minute or more!

Wandering back out to the open area in the early morning light, we then picked up our first Oriental Dollarbirds of the trip, a couple of Stork-billed Kingfishers, and our main target for the morning – Mangrove Whistler – without any trouble at all. Some also managed to catch up on Pied Triller, but before long, it was time to make our way to Fraser's Hill.

Making just two stops along the way – one for Rufous-bellied Swallow, and another for Red-bearded Bee-eater – we managed to arrive in town in time for lunch. Pretty much straight after lunch, we then undertook our first birding excursion in the area. The main aim of our afternoon was to get to grips with Malaysian Partridge, and that we certainly did! In the process, however, we also picked up a bunch of new birds for the trip, including the likes of Chestnut-capped Laughingthrush, Malayan Laughingthrush, Greater Yellownape, Black-throated Sunbird, Great Hornbill, Fire-breasted Flowerpecker, Streaked Spiderhunter, and Mountain Imperial Pigeon. Returning to the hotel and birding some nearby forests also paid off, with our first views of Mountain Fulvetta and Rufous-browed Flycatcher.
The next morning saw us making our first attempt at seeing a Mountain Scops Owl. Needless to say, we heard a few but didn’t even catch a glimpse of any of these notoriously tricky-to-see birds. *Nevertheless, it was enjoyable being out when the dawn chorus began.* On our way back to the hotel, we saw our first Silver-eared Mesias, another Black-and-crimson Oriole, and a Large Cuckooshrike hunting for insects drawn to nearby streetlamps. Post-breakfast birding wasn't too shabby either, when a lengthy stroll along the Telekom loop bagged us, among other species, our first Blue Nuthatches, Buff-breasted Babblers, Yellow-bellied Warbler, Golden Babblers, Mountain Bulbul, and an out-of-place Puff-throated Babbler. We also enjoyed our first looks at White-thighed Langur – *a subtly attractive little primate not always seen on our tours to the area.*

![Rufous-browed Flycatcher by Rich Lindie](image)

For the afternoon, we wandered our way down the road toward the Jeriau Falls. Birding was slower than that of the morning, but we did manage to pick up Slaty-backed Forktail, Grey-headed Canary-Flycatcher, Bronzed Drongo, Greater Racket-tailed Drongo, Dusky Broadbill, Silver-breasted Broadbill, and Red-headed Trogon for our efforts! We also heard a couple of Pygmy Flycatchers but weren’t able to entice them into view. A few Malaysian Eared Nightjars, on the other hand, put on a great show, and just in time for us to make it back to the hotel for dinner at 8.

The following morning saw us meandering downhill again, this time along the road to the so-called 'Gap'. Whilst the theme of the morning seemed to be unresponsive and shy birds, we ended up seeing quite a lot. Included in the bounty were Blyth's Hawk-Eagle, Crimson-winged Woodpecker, Maroon Woodpecker, Silver-breasted Broadbill, Bar-winged Flycatcher-Shrike, Little Spiderhunter, and our main target, Black Laughingthrush.
For the afternoon, we went out in search of Lesser Shortwing, White-tailed Robin, and Large Niltava – all of which we all saw exceptionally well along the Hemmant Trail. An hour on a corner nearby bagged us, among other things, unbeatable views of Streaked Wren-Babbler, Lesser Yellownape, Long-tailed Broadbill, and Red-headed Trogon. A wonderful end to the day.

Some of us headed out early again the next morning to try for better views of Mountain Scops Owl – having only seen it in flight the previous morning. Little did we know just how much our efforts would be rewarded when, with half an hour to spare, we had incredible views of this notoriously tricky bird, pulsing as it called from an exposed perch! Post-breakfast, and back together as a complete group, we then headed down the hill one last time and birded along the main road to Raub, where a couple of sessions playing Collared Owlet and a recording of mobbing produced great views of Yellow-vented Flowerpecker, Purple-naped Sunbird, and Scarlet Minivet. Two Common Hill Mynas were also seen perched atop a dead tree; while some careful scanning resulted in unbeatable views of a gorgeous male Orange-headed Trogon.

The drive to Taman Negara followed and, save for a couple of toilet breaks and a lunch of duck and yam, we saw nothing of (bird) interest until we reached the park itself. All checked-in by just before 4, we took a short rest and headed straight to a nearby hide, where several Large Green Pigeons put on a good show, as well as a few Crested Firebacks, a trio of Orange-backed Woodpeckers, a couple of Black-bellied Malkohas, and – the star of the show – a couple of Black-thighed Falconets.
Early the next morning, we undertook our first walk into the humid forest near the resort and along the river nearby. The rarest of the morning's birds was, undoubtedly, Straw-headed Bulbul; while the supporting cast included Diard’s Trogon, Blyth’s Paradise Flycatcher, Crested Jay, Black-throated Babbler, Fluffy-backed Tit-Babbler, and, wait for it, Rail-babbler! An afternoon in and around the hide wasn't too shabby either, when a wonderful male Malayan Peacock-Pheasant wandered into view, followed shortly by a pair of very entertaining White-rumped Shamas.

On both subsequent mornings, we paid a visit to trails downriver from the resort. The downside of visiting these trails was, of course, the lack of boardwalks, and the resulting infestation of leeches we faced, but we saw several great birds for our efforts, particularly on the first morning. Chief among these were the two pittas we all saw well – Malayan Banded and Garnet – though high scores also go to the Rufous-collared Kingfisher, Scarlet-rumped Trogon, Green Broadbill, Rufous-chested Flycatcher, and Buff-necked Woodpecker that were also seen well by most.

Whiskered Treeswift by Rich Lindie

For our final morning in Taman Negara, we opted to spend some time in the open area around the campsite. This worked out very well for the list, whilst also ensuring no-one spent the remainder of the travel day with leech wounds! Among the birds seen, Little Green Pigeon, Rufous Woodpecker, Bar-winged Flycatcher-Shrike, Green Iora, and Blue-rumped Parrot were all new for the trip! The remainder of the day, by contrast, saw no new birds added to the list, as we made our way from bus to plane and back to bus again, eventually ending up at our hotel in Kota Kinabalu in the early hours of the evening.
With little daylight before our flight to Lahad Datu, we rushed off the next morning to 'twitch' a few birds around the city. The first of these was Nankeen Night Heron, a couple of which we found within just a couple of minutes of our arrival; whilst the others – Blue-naped Parrot, Sunda Pygmy Woodpecker, and White-breasted Woodswallow – took barely any more. We even had time to rush to a nearby beach to look for some waders, though nothing interesting was about.

Following our arrival in Lahad Datu, and a leisurely lunch, we then began the last leg of our journey into the Danum Valley, and onto Borneo Rainforest Lodge. Making our way there, we were ever-watchful for White-fronted Falconet – a single of which was eventually found – as well as other large birds and mammals. In the former category, a souring Crested Honey Buzzard was our first, as was a Helmeted Hornbill; while a mother Orangutan and baby took top place in the latter. The day wasn't over when we reached the lodge, of course – we still had a night drive to look forward to. And what a great night drive it was! Aside from the ever-popular Giant Flying Squirrels that we saw (one of which was seen soaring through the forest), we had great views of a Reddish Scops Owl, a Sunda Scops Owl, a Brown Wood Owl, and yet another Malayan Civet!

The following morning was a red-letter one for sure. Starting with a couple of new bulbuls (Finsch's and Buff-vented), a Plain Sunbird, and a White-crowned Shama, it seemed at first as if it would be a rather average (typically very good!) morning in the Danum Valley, but things soon heated up. First up, we had great views of a Blue-headed Pitta, then a Black-throated Wren-Babbler (through the scope), and then unbeatable looks at a pair of Bornean Wren-Babblers! And that was on top of the other species we saw that morning – Maroon-breasted Philentoma and White-chested Babbler included!
Having a great morning was fortunate, since the afternoon was pretty much a complete bust, save for a few sightings in between rain showers. Getting back on track with our great luck didn't have to wait long, though, when a night walk into the forest produced wonderful views of a Large Frogmouth without any effort at all!

Needless to say, things had to slow down a little, though I don't think anyone complained about the following morning's sightings. Chief among these for many of the participants being those that we had of Orangutans and Red Leaf Monkeys. On the birding front, top sightings go to the Bornean Blue Flycatcher we saw at close range, a flock of Pygmy White-eyes at almost the same distance, Yellow-eared Spiderhunter, Bornean Spiderhunter, Red-throated Sunbird, Van Hasselt's Sunbird, Rufous-tailed Shama, a wonderfully close Wallace's Hawk-Eagle, equally close Helmeted Hornbills, a Banded Broadbill, and even a couple of Rufous Piculets! A great morning by any standards. Lunch, once again, was proceeded by a heavy downpour, and then another walk along the main road. Not much was seen, though further close-ups of some Orangutans and a Bearded Pig were much-appreciated.

Our final morning in the Danum Valley didn't produce too much of interest either – adding just Horsfield's Babbler, Fiery Minivet, Rufous-bellied Eagle, and White-crowned Forktail to our list – and all too soon it was time to leave the natural surrounds of the lodge for Lahad Datu, and the expansive oil palm plantations that line pretty much the entire road from Lahad Datu to Sandakan and further afield. Indeed, it was a welcome change to turn onto the entrance road to the Gomantong Caves, where some truly lush and healthy forest still survives right up to the road verge. And although birding was slow in the afternoon heat, we had the most memorable encounter with a mother Orangutan and her offspring mere moments after stepping onto the boardwalk to the caves.
The caves themselves, as always, were memorable too, not just for the stench but also for the swiftlet nests and the sheer numbers of birds that call them home. Hanging around outside the caves for a little longer, we added Moustached Hawk-Cuckoo and Bat Hawk to our list, before making our way to the Kinabatangan River for two nights.

The following day was divided into two leisurely boat trips along the Kinabatangan, during which we enjoyed several mammal and bird sightings, the highlights of which included close-ups of the bizarre Proboscis Monkey, Grey-headed Fish Eagle, Jerdon’s Baza, White-bellied Woodpecker, Lesser Adjutant, Wrinkled Hornbill, and Hooded Pitta. A little vigilance during our midday break produced sightings of Scarlet-backed Flowerpecker, Storm’s Stork, Malaysian Blue Flycatcher, and several Black-and-yellow Broadbills. Our afternoon ‘cruise’, on the other hand, produced little of interest, though it was pleasant all the same. A short evening night walk found a pair of Malayan Civets under the cabins.

The next day was largely a travel one, seeing us make our way to Sandakan, onward to Kota Kinabalu, and ultimately on to Mt Kinabalu. It wasn’t without birds, however, as we twitched Copper-throated Sunbird on our way to Sandakan, and a short stop at the Kinabalu National Park headquarters produced sightings of Bornean Forktail, Chestnut-crested White-eye, Mountain Leaf Warbler, Black-capped White-eye, and Chestnut-hooded Laughingthrush.

The following day saw many more birds, of course, as we found ourselves exploring the upper reaches of the park’s main road. First to fall was Bornean Swiftlet – a handful of which were right around the start of the Summit Trail, followed shortly by Sunda Laughingthrush, Mountain Blackeye, Sunda Bush...
Warbler, and Indigo Flycatcher. Further down the road, Yellow-breasted Warbler, Golden-naped Barbet, and Sunda Cuckoo put in stellar appearances before a very quiet late morning and early afternoon saw us retreating to the hotel before sunset.

Our second full day in the park was always expected to be rather slow, though that didn't make it all that much easier to endure! Nonetheless, we walked away with great views of a few new birds, including White-browed Shortwing, Bornean Green Magpie, and Eyebrowed Jungle Flycatcher. Some of us also had great views of Red-breasted Partridge, and we all finally got to see the flowerpecker exceptionally close. Lunchtime was frustertaining again – but, then again, it was better than sitting on a road verge waiting for hours for partridges and thrushes to not show!

Our final day in the park – as is so often the case – finally saw us tracking down Whitehead’s Trogon, Whitehead’s Broadbill, and Everett’s Thrush, but little else of much interest. Not that I’m complaining – that’s a set of three very good birds!

The rest, as they say, is history, as we packed up ship and made our way, uneventfully, back to Kota Kinabalu, where we bode our farewells and began our respective journeys home.

Annotated List of species recorded

Note: Number in brackets ( ) indicate number of days on the tour the species was recorded.
List powered through the report generator of our partner iGoTerra.

Birds (378 in total: 359 seen, 19 heard)

Status codes: E = Endemic, NE = Near-endemic, I = Introduced
IUCN codes: CR = Critically endangered, EN = Endangered, VU = Vulnerable, EW = Extinct in the Wild, NT = Near Threatened, DD = Data Deficient

Pheasants, Grouse, and Allies Phasianidae

Malaysian Partridge Arborophila campbelli
(1) Fraser's Hill 22.5.

Red-breasted Partridge Arborophila herythra
(1) Mt Kinabalu NP 6.6.

Chestnut-necklaced Partridge (NT) Arborophila charltonii
(2) 1 heard Danum Valley--Conservation Area 31.5 and 1 heard Kinabatangan--River 3.6.

Ferruginous Partridge (NT) Caloperdix oculcus
(1) Bukit Tinggi 20.5.

Crimson-headed Partridge Haematortyx sanguiniceps
(2) 1 heard Mt Kinabalu NP 5.6 and 1 heard Mt Kinabalu NP 6.6.

Red Junglefowl Gallus gallus
(1) 1 heard Kuala Selangor 21.5.

Crested Fireback (NT) Lophura ignita
(2) Danum Valley--Conservation Area 31.5 and Danum Valley--Conservation Area 1.6.

Mountain Peacock-Pheasant (VU) Polyplectron inopinatum
(1) Bukit Tinggi 20.5.
Great Argus (NT) *Argusianus argus*
(1) 1 heard Danum Valley--Conservation Area 2.6.

**Storks Ciconiidae**

*Storm's Stork (EN) Ciconia stormi*
(1) Kinabatangan--River 3.6.

*Lesser Adjutant (VU) Leptoptilos javanicus*
(1) Kinabatangan--River 3.6.

**Herons, Egrets, and Bitterns Ardeidae**

*Yellow Bittern* *Ixobrychus sinensis*
(1) en route--Kuala Lumpur to Kuala Selangor 21.5.

*Black-crowned Night Heron* *Nycticorax nycticorax nycticorax*
(3) en route--Kuala Lumpur to Kuala Selangor 21.5, Kuala Selangor 22.5 and observed 30.5.

*Nankeen Night Heron* *Nycticorax caledonicus*
(1) observed 30.5.

*Striped Heron* *Butorides striata*
(2) Kuala Selangor 21.5 and Kuala Selangor 22.5.

*Eastern Cattle Egret* *Bubulcus coromandus*
Observed 2 day(s) in total.

*Grey Heron* *Ardea cinerea jouyi*
(2) Kuala Selangor 21.5 and Kuala Selangor 22.5.

*Purple Heron* *Ardea purpurea manilensis*
(2) en route--Kuala Lumpur to Kuala Selangor 21.5 and Kinabatangan--River 3.6.

*Great Egret* *Ardea alba modesta*
(3) Kuala Selangor 22.5, Kinabatangan--River 2.6 and Kinabatangan--River 3.6.

*Intermediate Egret* *Ardea intermedia*
(2) observed 30.5.

*Little Egret* *Egretta garzetta*
(1) Kuala Selangor 21.5.

*Pacific Reef Heron* *Egretta sacra sacra*
(1) observed 30.5.

**Anhingas Anhingidae**

*Oriental Darter (NT) Anhinga melanogaster*
(3) Danum Valley--Conservation Area 1.6, Danum Valley--Conservation Area 2.6 and Kinabatangan--River 3.6.

**Kites, Hawks & Eagles Accipitridae**

*Crested Honey Buzzard* *Pernis ptilorhynchus*
(1) Danum Valley--Conservation Area 30.5.

*Jerdon's Baza* *Aviceda jerdoni*
(1) Kinabatangan--River 3.6.

*Crested Serpent Eagle* *Spilornis cheela*
(6) Fraser's Hill 24.5, Danum Valley--Conservation Area 1.6, Gomantong Caves 2.6 and Kinabatangan--River 3.6.

*Bat Hawk* *Macheiramphus alcinus*
(1) Gomantong Caves 2.6.

**Buffy Fish Owl** *Ketupa ketupu*

(1) Kuala Selangor 22.5.

**Brown Wood Owl** *Strix leptogrammica*

(3) Observed Danum Valley--Conservation Area 30-1.6.

**Collared Owlet** *Glaucidium brodiei*

(3) I heard Fraser's Hill 22.5, 1 heard Fraser's Hill 23.5 and 1 heard Mt Kinabalu NP 5.6.

**Frogmouths Podargidae**

**Large Frogmouth (NT)** *Batrachostomus auritus*

(1) Danum Valley--Conservation Area 31.5.

**Blyth's Frogmouth** *Batrachostomus affinis affinis*

(1) I heard Danum Valley--Conservation Area 30.5.

**Sunda Frogmouth** *Batrachostomus cornutus*

(1) Danum Valley--Conservation Area 30.5.

**Nightjars and Allies Caprimulgidae**

**Malaysian Eared Nightjar** *Lyncornis temminckii*

(1) Fraser's Hill 23.5.

**Large-tailed Nightjar** *Caprimulgus macrurus*

(2) Kuala Selangor 21.5 and Kuala Selangor 22.5.

**Treeswifts Hemiprocnidae**

**Grey-rumped Treeswift** *Hemiprocne longipennis*

(2) Bukit Tinggi 20.5 and Danum Valley--Conservation Area 31.5.

**Whiskered Treeswift** *Hemiprocne comata comata*

(3) Observed Danum Valley--Conservation Area 30-1.6.

**Swifts Apodidae**

**Plume-toed Swiftlet** *Collocalia affinis*

(6) Fraser's Hill 23.5 and observed Danum Valley--Conservation Area 31-2.6.

**Bornean Swiftlet** *Collocalia dodgei*

(1) Mt Kinabalu NP 5.6.

**Mossy-nest Swiftlet** *Aerodramus salangana*

(1) Gomantong Caves 2.6.

**Black-nest Swiftlet** *Aerodramus maximus*
(1) Gomantong Caves 2.6.

**Edible-nest Swiftlet**  
*Aerodramus fuciphagus*

(2) Gomantong Caves 2.6.

**Silver-rumped Spinetail**  
*Rhaphidura leucopygialis*

(2) Bukit Tinggi 20.5 and Danum Valley--Conservation Area 31.5.

**Brown-backed Needletail**  
*Hirundapus giganteus giganteus*

(1) Fraser's Hill 25.5.

**House Swift**  
*Apus nipalensis*

(6) Observed Fraser's Hill 23-25.5.

---

### Trogons *Trogonidae*

**Diard's Trogon (NT)**  
*Harpactes diardi*

(3) Observed Danum Valley--Conservation Area 31-2.6.

**Whitehead's Trogon (NT)**  
*Harpactes whiteheadi*

(1) Mt Kinabalu NP 7.6.

**Scarlet-rumped Trogon (NT)**  
*Harpactes duvaucelii*

(2) Danum Valley--Conservation Area 31.5 and Gomantong Caves 2.6.

**Orange-breasted Trogon**  
*Harpactes oreskios*

(1) Fraser's Hill 25.5.

**Red-headed Trogon**  
*Harpactes erythrocephalus*

(2) Fraser's Hill 23.5 and Fraser's Hill 24.5.

---

### Rollers *Coraciidae*

**Oriental Dollarbird**  
*Eurystomus orientalis*

(2) Kuala Selangor 22.5 and Kinabatangan--River 3.6.

---

### Kingfishers *Alcedinidae*

**Banded Kingfisher**  
*Lacedo pulchella*

(3) 1 heard Fraser's Hill 24.5, 1 heard Danum Valley--Conservation Area 31.5 and 1 heard Danum Valley--Conservation Area 1.6.

**Stork-billed Kingfisher**  
*Pelargopsis capensis*

(4) Kuala Selangor 22.5, Danum Valley--Conservation Area 1.6, Danum Valley--Conservation Area 2.6 and Kinabatangan--River 3.6.

**White-throated Kingfisher**  
*Halcyon smyrnensis perpulchra*

(4) Kuala Selangor 22.5.

**Collared Kingfisher**  
*Todiramphus chloris*

**Blue-banded Kingfisher (VU)**  
*Alcedo euryzona*

(1) Danum Valley--Conservation Area 1.6.

**Blue-eared Kingfisher**  
*Alcedo meninting meninting*

(1) Kinabatangan--River 3.6.

**Oriental Dwarf Kingfisher**  
*Ceyx erithaca*

(2) Danum Valley--Conservation Area 30.5 and Danum Valley--Conservation Area 31.5.

---

### Bee-eaters *Meropidae*

**Red-bearded Bee-eater**  
*Nyctyornis amictus*

(4) Fraser's Hill 22.5, Fraser's Hill 24.5, 1 heard Fraser's Hill 25.5 and Danum Valley--Conservation Area 1.6.

**Banded Broadbill**  
*Eurylaimus javanicus*  
(3) 1 heard Fraser's Hill 24.5, Danum Valley--Conservation Area 1.6 and Danum Valley--Conservation Area 2.6.

**Black-and-yellow Broadbill (NT)**  
*Eurylaimus ochromalus*  
(5) Bukit Tinggi 20.5, up to 1 Danum Valley--Conservation Area 31.6 and Kinabatangan--River 3.6.

**Dusky Broadbill**  
*Corydon sumatranus*  
(1) Fraser's Hill 23.5.

**Pittas *Pitidae***

**Rusty-naped Pitta**  
*Hydrornis oatesi deborah*  
(2) 1 heard Fraser's Hill 23.5 and 1 heard Fraser's Hill 24.5.

**Giant Pitta**  
*Hydrornis caeruleus*  
(1) 1 heard Danum Valley--Conservation Area 31.5.

**Blue-headed Pitta**  
*Hydrornis baudii*  
(2) Danum Valley--Conservation Area 31.5 and Danum Valley--Conservation Area 1.6.

**Black-crowned Pitta**  
*Erythropitta ussheri*  
(1) Danum Valley--Conservation Area 31.5.

**Hooded Pitta**  
*Pitta sordida*  
(1) Kinabatangan--River 3.6.

**Australasian Warblers *Acanthizidae***

**Golden-bellied Gerygone**  
*Gerygone sulphurea*  
(1) Kuala Selangor 21.5.

**Woodshrikes and allies *Tephrodornithidae***

**Bar-winged Flycatcher-Shrike**  
*Hemipus picatus*  
(2) Fraser's Hill 24.5 and Fraser's Hill 25.5.

**Large Woodshrike**  
*Tephrodornis virgatus*  
(1) Bukit Tinggi 20.5.

**Rufous-winged Philentoma**  
*Philetomina pyrhoptera*  
(1) Danum Valley--Conservation Area 2.6.

**Maroon-breasted Philentoma (NT)**  
*Philetomina velata*  
(1) Danum Valley--Conservation Area 31.5.
**Bristlehead Pityriaseidae**

Bornean Bristlehead (NT)  
*Pityriasis gymnocephala*  
(1) I heard Kinabatangan--River 3.6.

**Woodswallows, Butcherbirds and allies Artamidae**

White-breasted Woodswallow  
*Artamus leucorynchus*  
(2) observed 30.5.

**Ioras Aegithinidae**

Common Iora  
*Aegithina tiphia*  
(2) Kuala Selangor 21.5 and observed 30.5.

Green Iora (NT)  
*Aegithina viridissima*  
(2) Danum Valley--Conservation Area 31.5 and Danum Valley--Conservation Area 1.6.

**Cuckoo-shrikes Campephagidae**

Javan Cuckooshrike  
*Coracina javensis*  
(4) Observed Fraser's Hill 22-25.5.

Sunda Cuckooshrike  
*Coracina larvata*  
(1) Mt Kinabalu NP 5.6.

Lesser Cuckooshrike  
*Coracina fimbriata*  
(3) I heard Fraser's Hill 22.5, Danum Valley--Conservation Area 30.5 and Danum Valley--Conservation Area 1.6.

Pied Triller  
*Lalage nigra*  
(2) Kuala Selangor 21.5 and Fraser's Hill 22.5.

Fiery Minivet (NT)  
*Pericrocotus igneus*  
(1) Danum Valley--Conservation Area 2.6.

Grey-chinned Minivet  
*Pericrocotus solaris*  
(3) Fraser's Hill 23.5, Fraser's Hill 24.5 and Mt Kinabalu NP 5.6.

Scarlet Minivet  
*Pericrocotus speciosus*  
(1) Fraser's Hill 25.5.

**Whistlers and allies Pachycephalidae**

Mangrove Whistler  
*Pachycephala cinerea cinerea*  
(2) I heard Kuala Selangor 21.5 and Kuala Selangor 22.5.

Bornean Whistler  
*Pachycephala hypoxantha*  
(2) Mt Kinabalu NP 5.6 and Mt Kinabalu NP 6.6.

**Shrikes Laniidae**

Long-tailed Shrike  
*Lanius schach*  
(1) en route--Kuala Lumpur to Kuala Selangor 21.5.

**Vireos, Greenlets Vireonidae**

White-bellied Erpornis  
*Erpornis zantholeuca*  
(3) Bukit Tinggi 20.5, Fraser's Hill 24.5 and Fraser's Hill 25.5.

Blyth's Shrike-babbler  
*Pteruthius aeralatus*  
(2) Fraser's Hill 22.5 and Fraser's Hill 23.5.

Black-eared Shrike-Babbler  
*Pteruthius melanotis tahanensis*  
(1) Fraser's Hill 23.5.
Old World Orioles *Oriolidae*

**Dark-throated Oriole (NT)**  *Oriolus xanthonotus*
(2) Danum Valley--Conservation Area 31.5 and 1 heard Gomantong Caves 2.6.

**Black-naped Oriole**  *Oriolus chinensis*
(2) Kuala Selangor 22.5.

**Black-and-crimson Oriole**  *Oriolus cruentus*
(3) Observed Fraser's Hill 22-24.5.

---

Drongos *Dicruridae*

**Ashy Drongo**  *Dicrurus leucophaeus*
(1) Mt Kinabalu NP 4.6.

**Bronzed Drongo**  *Dicrurus aeneus*
(1) Fraser's Hill 23.5.

**Lesser Racket-tailed Drongo**  *Dicrurus remifer*
(3) Up to 1 Fraser's Hill 22-24.5.

**Hair-crested Drongo**  *Dicrurus hottentottus*
(2) Mt Kinabalu NP 5.6 and Mt Kinabalu NP 6.6.

**Greater Racket-tailed Drongo**  *Dicrurus paradiseus*
(1) Fraser's Hill 23.5.

---

Fantails *Rhipiduridae*

**White-throated Fantail**  *Rhipidura albicollis*
(5) Observed Fraser's Hill 22-25.5 and Mt Kinabalu NP 5.6.

**Malaysian Pied Fantail**  *Rhipidura javanica*
(7) Kuala Selangor 21.5, Kuala Selangor 22.5, observed Danum Valley--Conservation Area 30-1.6 and Kinabatangan--River 3.6.

**Spotted Fantail**  *Rhipidura perlata*
(1) Danum Valley--Conservation Area 1.6.

---

Monarchs *Monarchidae*

**Black-naped Monarch**  *Hypothymis azurea*
(1) Gomantong Caves 2.6.

**Blyth's Paradise Flycatcher**  *Terpsiphone affinis*
(1) Danum Valley--Conservation Area 31.5.

---

Crows, Jays, and Magpies *Corvidae*

**Common Green Magpie**  *Cissa chinensis*
(4) Up to 1 Fraser's Hill 22-25.5.

**Bornean Green Magpie**  *Cissa jefferyi*
(1) Mt Kinabalu NP 6.6.

**Bornean Treepie**  *Dendrocitta cinerascens*
(2) Mt Kinabalu NP 5.6 and Mt Kinabalu NP 6.6.

**House Crow**  *Corvus splendens*
Observed 3 day(s) in total.

**Slender-billed Crow**  *Corvus enca*
(5) Up to 1 Danum Valley--Conservation Area 30-2.6 and Kinabatangan--River 3.6.

**Large-billed Crow**  *Corvus macrorhynchos macrorhynchos*
(4) Up to 1 Fraser's Hill 22-24.5.
Rail-babblers *Eupetidae*

**Rail-babblers (NT)**

*Eupetes macrocerus*

(1) I heard Bukit Tinggi 20.5.

Fairy Flycatchers *Stenostiridae*

**Grey-headed Canary-Flycatcher**

*Culicicapa ceylonensis*

(3) Fraser's Hill 23.5, Fraser's Hill 25.5 and Danum Valley--Conservation Area 31.5.

Tits, Chickadees *Paridae*

**Sultan Tit**

*Melanochlora sultanea flavocristata*

(2) Fraser's Hill 23.5 and Fraser's Hill 25.5.

**Cinereous Tit**

*Parus cinereus*

(1) Kuala Selangor 21.5.

Bulbs *Pycnonotidae*

**Black-headed Bulbul**

*Pycnonotus atriceps*

(1) Sempah Pass 20.5.

**Black-crested Bulbul**

*Pycnonotus flaviventris caecili*

(3) Fraser's Hill 24.5 and Fraser's Hill 25.5.

**Scaly-breasted Bulbul (NT)**

*Pycnonotus squamatus*

(3) Sempah Pass 20.5, Danum Valley--Conservation Area 31.5 and Danum Valley--Conservation Area 1.6.

**Grey-bellied Bulbul (NT)**

*Pycnonotus cyaniventer*

(2) Sempah Pass 20.5 and Danum Valley--Conservation Area 1.6.

**Stripe-throated Bulbul**

*Pycnonotus finlaysoni finlaysoni*

(2) Bukit Tinggi 20.5 and Fraser's Hill 23.5.

**Yellow-vented Bulbul**

*Pycnonotus goiavier*

(3) Kinabatangan--River 3.6.

**Olive-winged Bulbul**

*Pycnonotus plumosus*

(1) Kuala Selangor 21.5.

**Asian Red-eyed Bulbul**

*Pycnonotus brunneus*

(1) Sempah Pass 20.5.

**Spectacled Bulbul**

*Pycnonotus erythropthalmos*

(3) Sempah Pass 20.5, Danum Valley--Conservation Area 31.5 and Danum Valley--Conservation Area 1.6.

**Finsch's Bulbul (NT)**

*Alophoixus finschii*

(1) Danum Valley--Conservation Area 31.5.

**Ochraceous Bulbul**

*Alophoixus ochraceus*

(2) Bukit Tinggi 20.5 and Mt Kinabalu NP 5.6.

**Grey-cheeked Bulbul**

*Alophoixus bres*

(3) Danum Valley--Conservation Area 31.5, Danum Valley--Conservation Area 1.6 and Kinabatangan--River 3.6.

**Yellow-bellied Bulbul**

*Alophoixus phaeocephalus*

(1) Danum Valley--Conservation Area 31.5.

**Hairy-backed Bulbul**

*Tricholestes criniger*

(3) Sempah Pass 20.5, Danum Valley--Conservation Area 31.5 and Danum Valley--Conservation Area 1.6.

**Buff-vented Bulbul**

*Iole crypta*
Danum Valley--Conservation Area 31.5 and Danum Valley--Conservation Area 1.6.

**Mountain Bulbul**
(1) Fraser's Hill 23.5.

**Cinereous Bulbul**
(1) Bukit Tinggi 20.5.

**Swallows Hirundinidae**

- **Pacific Swallow**
  (14) Observed Fraser's Hill 23-25.5, Danum Valley--Conservation Area 28.5, Danum Valley--Conservation Area 31.5, Danum Valley--Conservation Area 1.6, Kinabatangan--River 3.6 and Mt Kinabalu NP 6.6.

- **Rufous-bellied Swallow**
  (4) Observed Fraser's Hill 22-25.5.

**Cupwings Pnoepyidae**

- **Pygmy Wren-babbler**
  (1) 1 heard Fraser's Hill 24.5.

**Cettiia Bush Warblers and allies Cettiidae**

- **Yellow-bellied Warbler**
  (2) Fraser's Hill 23.5 and Fraser's Hill 25.5.

- **Mountain Tailorbird**
  (6) Up to 1 Fraser's Hill 22-25.5, Mt Kinabalu NP 5.6 and Mt Kinabalu NP 6.6.

- **Sunda Bush Warbler**
  (1) Mt Kinabalu NP 5.6.

**Leaf warblers and allies Phylloscopidae**

- **Mountain Leaf Warbler**
  (3) 1 heard Fraser's Hill 24.5, Mt Kinabalu NP 4.6 and Mt Kinabalu NP 5.6.

- **Chestnut-crowned Warbler**
  (1) Fraser's Hill 23.5.

- **Yellow-breasted Warbler**
  (2) Mt Kinabalu NP 5.6 and Mt Kinabalu NP 6.6.

**Grassbirds and allies Locustellidae**

- **Striated Grassbird**
  Observed 1 day(s) in total.

**Cisticolas and allies Cisticolidae**

- **Zitting Cisticola**
  (1) en route--Kuala Lumpur to Kuala Selangor 21.5.

- **Rufescent Prinia**
  (2) Fraser's Hill 23.5 and Fraser's Hill 25.5.

- **Yellow-bellied Prinia**
  (4) en route--Kuala Lumpur to Kuala Selangor 21.5, Fraser's Hill 23.5, observed 30.5 and Danum Valley--Conservation Area 31.5.

- **Common Tailorbird**
  (2) 1 heard Bukit Tinggi 20.5 and Kuala Selangor 21.5.

**Laughingthrushes Leiothrichidae**

5. Sunda Laughingthrush  
   (1) Mt Kinabalu NP 5.6.  
   *Garrulax palliatus*

6. Chestnut-capped Laughingthrush  
   (4) Observed Fraser's Hill 22-25.5.  
   *Garrulax mitratus*

7. Chestnut-hooded Laughingthrush  
   (3) Observed Mt Kinabalu NP 4-6.6.  
   *Garrulax treacheri*

8. Black Laughingthrush  
   (2) 1 heard Fraser's Hill 23.5 and Fraser's Hill 24.5.  
   *Garrulax lugubris*

9. Bare-headed Laughingthrush  
   (1) Mt Kinabalu NP 5.6.  
   *Garrulax calvus*

10. Malayan Laughingthrush  
    (1) Fraser's Hill 22.5.  
    *Trochalopteron peninsulare*

11. Blue-winged Minla  
    (2) Fraser's Hill 22.5 and Fraser's Hill 23.5.  
    *Minla cyanouroptera sordidior*

12. Silver-eared Mesia  
    (2) Fraser's Hill 23.5 and Fraser's Hill 24.5.  
    *Leiothrix argentauris*

13. Long-tailed Sibia  
    (4) Observed Fraser's Hill 22-25.5.  
    *Heterophasia picaoides*

---

**White-eyes Zosteropidae**

14. Chestnut-crested Yuhina  
    (3) Observed Mt Kinabalu NP 4-6.6.  
    *Yuhina everetti*

15. Pygmy White-eye  
    (1) Danum Valley--Conservation Area 1.6.  
    *Oculocincta squamifrons*

16. Mountain Blackeye  
    (1) Mt Kinabalu NP 5.6.  
    *Chlorocharis emiliae*

17. Oriental White-eye  
    (3) Sempah Pass 20.5, Kuala Selangor 21.5 and Kuala Selangor 22.5.  
    *Zosterops palpebrosus*

18. Black-capped White-eye  
    (3) Observed Mt Kinabalu NP 4-6.6.  
    *Zosterops atricapilla*

19. Everett's White-eye  
    (4) Bukit Tinggi 20.5, Fraser's Hill 22.5, Fraser's Hill 24.5 and Fraser's Hill 25.5.  
    *Zosterops everetti*

---

**Fairy-bluebirds Irenidae**

20. Asian Fairy-bluebird  
    *Irena puella*
Nuthatches *Sittidae*

**Velvet-fronted Nuthatch**
*Sitta frontalis*
(3) Danum Valley--Conservation Area 31.5, Danum Valley--Conservation Area 2.6 and Mt Kinabalu NP 5.6.

**Blue Nuthatch**
*Sitta azurea*
(2) Fraser's Hill 23.5 and Fraser's Hill 24.5.

Starlings *Sturnidae*

**Asian Glossy Starling**
*Aplonis panayensis*
(3) observed 30.5 and en route--Danum Valley to Lahad Datu 2.6.

**Common Hill Myna**
*Gracula religiosa*
(2) Fraser's Hill 25.5 and Danum Valley--Conservation Area 30.5.

**Javan Myna**
*Acridotheres javanicus*
(6) Kinabatangan--River 3.6.

**Common Myna**
*Acridotheres tristis tristis*
Observed 3 day(s) in total.

Thrushes and Allies *Turdidae*

**Everett's Thrush (NT)**
*Zoothera everetti*
(1) Mt Kinabalu NP 7.6.

Chats, Old World Flycatchers *Muscicapidae*

**Oriental Magpie-Robin**
*Copsychus saularis*

**Rufous-tailed Shama**
*Copsychus pyrropygus*
(1) Danum Valley--Conservation Area 1.6.

**White-rumped Shama**
*Copsychus malabaricus*
(1) Fraser's Hill 24.5.

**White-crowned Shama**
*Copsychus stricklandii*
(3) Danum Valley--Conservation Area 31.5, Danum Valley--Conservation Area 1.6 and Gomantong Caves 2.6.

**Rufous-browed Flycatcher**
*Anthipes solitaris*
(3) Observed Fraser's Hill 22-24.5.

**Pale Blue Flycatcher**
*Cyornis unicolor harterti*
(1) Sempah Pass 20.5.

**Hill Blue Flycatcher**
*Cyornis banyumas*
(2) 1 heard Fraser's Hill 23.5 and Fraser's Hill 24.5.

**Sunda Blue Flycatcher (VU)**
*Cyornis caerulatus*
(1) Danum Valley--Conservation Area 31.5.

**Bornean Blue Flycatcher**
*Cyornis superbus*
(1) Danum Valley--Conservation Area 1.6.

**Malaysian Blue Flycatcher (NT)**
*Cyornis turcosus*
(1) Kinabatangan--River 3.6.

**Mangrove Blue Flycatcher**
*Cyornis rufigastra*
(1) Kuala Selangor 21.5.

**Large Niltava**
*Niltava grandis decipiens*
(1) Fraser's Hill 24.5.
Verditer Flycatcher  
*Eumyias thalassinus thalassoides*  
(4) Bukit Tinggi 20.5 and observed Fraser's Hill 22-24.5.

Indigo Flycatcher  
*Eumyias indigo*  
(2) Mt Kinabalu NP 5.6 and Mt Kinabalu NP 6.6.

Lesser Shortwing  
*Brachypteryx leucophrys*  
(1) observed Fraser's Hill 23.5 and Fraser's Hill 24.5.

White-browed Shortwing  
*Brachypteryx montana*  
(2) observed Mt Kinabalu NP 5.6 and Mt Kinabalu NP 6.6.

Eyebrowed Jungle Flycatcher  
*Vauriella gularis*  
(2) Mt Kinabalu NP 6.6 and Mt Kinabalu NP 7.6.

White-tailed Robin  
*Myiomela leucura*  
(1) Fraser's Hill 24.5.

Chestnut-naped Forktail (NT)  
*Enicurus ruficapillus*  
(1) Danum Valley--Conservation Area 1.6.

Slaty-backed Forktail  
*Enicurus schistaceus*  
(2) Fraser's Hill 23.5 and Fraser's Hill 24.5.

White-crowned Forktail  
*Enicurus leschenaulti*  
(1) Danum Valley--Conservation Area 2.6.

Bornean Forktail  
*Enicurus borneensis*  
(2) Mt Kinabalu NP 4.6 and 1 observed Mt Kinabalu NP 6.6.

Bornean Whistling Thrush  
*Myophonus borneensis*  
(2) Mt Kinabalu NP 5.6 and Mt Kinabalu NP 6.6.

Snowy-browed Flycatcher  
*Ficedula hyperythra*  
(2) Mt Kinabalu NP 5.6 and Mt Kinabalu NP 6.6.

Little Pied Flycatcher  
*Ficedula westermanni*  
(4) Fraser's Hill 22.5, Fraser's Hill 24.5, Mt Kinabalu NP 5.6 and Mt Kinabalu NP 6.6.

Pygmy Flycatcher  
*Muscicapa hodgsoni sondaica*  
(1) observed Fraser's Hill 23.5.

**Leafbirds Chloropseidae**

Greater Green Leafbird  
*Chloropsis sonnerati*  
(1) Danum Valley--Conservation Area 1.6.

Lesser Green Leafbird (NT)  
*Chloropsis cyanopogon*  
(2) Bukit Tinggi 20.5 and Danum Valley--Conservation Area 31.5.

Blue-winged Leafbird  
*Chloropsis cochinchenensis*  
(3) Bukit Tinggi 20.5, Fraser’s Hill 24.5 and Fraser's Hill 25.5.

Orange-bellied Leafbird  
*Chloropsis hardwickii malayana*  
(3) Observed Fraser's Hill 22-24.5.

**Flowerpeckers Dicaeidae**

Yellow-breasted Flowerpecker  
*Prionochilus maculatus*  
(3) Observed Danum Valley--Conservation Area 30-1.6.

Crimson-breasted Flowerpecker  
*Prionochilus percussus*  
(1) Bukit Tinggi 20.5.

Yellow-rumped Flowerpecker  
*Prionochilus xanthopygius*  
(3) Observed Danum Valley--Conservation Area 30-1.6.

Yellow-vented Flowerpecker  
*Dicaeum chrysorrheum chrysorrheum*  
(1) Fraser's Hill 25.5.
